Terrible Accident on the Chicago and North-Western R. R.!!

EXCURSION TRAIN SMASHED UP.

THIRTEEN LIVES LOST!!

MANY BADLY INJURED!!

U. S. MARSHAL THOMAS KILLED.

Our city was thrown into the greatest excitement yesterday afternoon, by the receipt of a telegraphic despatch from Watertown, stating that the excursion train going from Oshkosh, Fond du Lac and Watertown to Chicago on the North-Western Railroad, had been smashed up about eight miles south of Watertown and twenty or thirty persons killed. As is usually the case on such occasions the disaster was greatly magnified, but still the number killed and injured proves to be fearfully large.

Thirteen persons were killed on the spot or died soon after, and two at least of the large number seriously injured are not expected to recover. Amongst the killed was Mr. M. J. THOMAS, of this city, U. S. Marshal, and V. B. SMEAD, editor of the *Democratic Press*, at Fond du Lac, was so badly injured that he is not expected to recover. It was at first reported that PERRY H. SMITH, President of the Road, was amongst the killed, but that turns out to be an error, which arose probably from the fact that that was the name of the locomotive drawing the train. There were some 15 cars in the train, all filled to a jam. The excursion was to arrive at Chicago at 3 o'clock, where every preparation had been made to entertain the excursionists in the best style. They were to be received at the cars by the military and a committee of citizens headed by the Mayor, and escorted to the Richmond House.

Upon the announcement of the accident here, preparations were immediately made by a number of our citizens and His Honor Mayor PAGE, to dispatch a special train with surgical aid to the scene of the disaster. The train was in readiness at half after 2 o'clock, but was obliged to wait until after 4 for the arrival of freight trains. Quite a number of our best surgeons quickly volunteered their services, and together with the Mayor, several reporters, editors, and others, left at the above time for the scene of the catastrophe. The accident is reported to have been caused by the train running over an ox. We append all the information about the accident received from our own reporter and other sources up to the closing of the telegraph office at mid-night. At 7 o'clock last evening we received the following despatch:

NAMES OF THE KILLED AND WOUNDED.

The dead at present are as follows:

M. J. Thomas, U. S. Marshal, Milwaukee.
Jerome Mason, Fond du Lac.
J. Snow, do
J. Boardman, do

Mr. Bixley, Chicago, two ribs broken.

WATERTOWN, Nov. 1—8 1-2 P. M.

E. H. Sickles of Fond du Lac, just died.

J. L. Griffith, Fond du Lac, hurt, but not dangerously.

V. B. Smead, still living; recovery doubtful.

T. F. Craig, of Chicago, badly hurt in the groin.

From the Watertown Democrat—Extra.

WATERTOWN, Nov. 1—9 P. M.

A fearful Railroad accident took place on the Chicago and North-Western Railroad, about 10 o'clock this morning, some eight miles below this city. A heavy train of fifteen cars, crowded with excursionists on their way to Chicago, was running along at the rate of about 15 miles an hour, when a large ox suddenly jumped upon the track within a few yards of the engine. He was caught upon the cow-catcher, and carried about a dozen rods, when he fell under the locomotive just as it was crossing a small bridge and threw it into the ditch on the right hand side, plunged the baggage car half way down into a small pool of water, and literally drove together, shattered, mashed up, and demolished five passenger cars filled with passengers.

All were stove together in one confused and struggling mass of ruins. Men, women and children, were all mingled together in one common wreck of life and property. The shock was terrible, and the crash followed with irresistible power. The whole train was suddenly brought to a stand, and those who happened to be looking out of the windows could see fragments of bodies and limbs flying in all directions and lying all around. Almost all in the baggage car were killed instantly, or died after a few moments of agony. Such as escaped unhurt went at once to work to extricate the unfortunate ones who were found beneath a mass of rubbish. The third and fourth cars were thrust into each other in a most astonishing manner.

It was no time for idle sympathy. Among those earliest at the heart-rending and sickening spot were D. A. Cole, G. J. Enos, Hiram Barber, Jr., of this city; Dr. Wright, D. W. Raymond and Bragg, M. A. Hariing, J. C. Lewis, C. N. Eldridge, J. McCall, of Fond du Lac, and others, strangers to us, who went about the work of exhuming the buried. Ira Jones, of Hustisford, was among the most energetic helpers. As one by one the injured were taken out either dead or alive, they presented shocking sights of mangled bodies. One had his face torn off, another had lost both legs, another an arm, and scarcely one without several injuries.

Among the killed, the only one from Watertown was Thereon Minor, who is supposed to have been standing on the platform of the 2d passenger car, as he was caught between two cars apparently in the act of jumping out when arrested. He must have been crushed to death in an instant and remained in the condition in which he met his fate, it being impossible to stir the mass of ruins about him. The citizens of Oshkosh, who occupied the first two cars are the greatest sufferers by the calamity.

The dead, as far as heard from, are: Thereon Miner, of Watertown, Chas. Aldus, Jno. Lund, Geo. F. Emeron and Eliphalet Sherwood, of Oshkosh; M. J. Thomas, U. S. Marshal; John Boardman, Jerome Mason, Ex-Agent; J. Snow, J. L. Gillett, of Fond du Lac.

Among the most badly wounded are: E. R. Baldwin, who had both legs broken; C. P. Salia, Miss Foreman, Miss Jenkinson, Mrs. Jewell, Mrs. Page, Mrs. Coles Bashford, Mrs. Cartwright, Mrs. A. B. Knapp, Mrs. Barber, P. Shawyer, John Boardman, H. D. Bonesteel, Indian Agent; V. B. Smead, of the Fond du Lac *Press*, who is not expected to live; E. H. Nichols, Judge Fliet, Mrs. Bradford, James Patridge, C. C. L. Gould, and Mrs. Lewis. J. J. Craig, of Chicago was dangerously hurt.

The train was not going fast, nor is the catastrophe attributed to any carelessness or want of caution on the part of those having charge of it. The Road had been so recently built that there has not been time to fence it. The crash took place in a kind of marsh, near a running brook, over which a bridge had been constructed, in the midst of a forest which was being cleared. The animal that caused the terrible accident came out from the thicket and ran across the track but a few yards before the engine.

After the event happened all was done that was possible to alleviate the sufferings of the injured. Dr.'s Cody and Spalding, of this city, and Dr. Henning, of Oshkosh, and other physicians whose names we would give if we knew them, were active and assiduous in their ministrations to the wounded and dying. The ladies freely parted with all articles of clothing that could be used for bandages to bind up broken heads, limbs and bodies and did their full share of making those comfortable who required assistance.

About half-past three o'clock, P. M., the train, or what was left of it, returned to this city. Our citizens promptly discharged every obligation of hospitality and did all in their power to extend relief to the victims of an unexpected and deplorable casualty. The hotels were thrown open, private residences were made free to all, every article of food, or raiment, was provided, that was needed. Eleven of the dead are now lying in this city, and such of the wounded as it would be dangerous to remove any further. The survivors have gone to their homes north, with minds overcast by an event least expected on an occasion like this. E. H. Sickles has since died. Some of the rest are slowly improving, and may recover.

LATER---11 P. M.

In company with Mayor PAGE, Chief Engineer EVISTON, ten of our City Physicians, and a number of editors and reporters, we left for Watertown by the 4:30 train, yesterday afternoon. The conductor put the train through in good time, and soon after 6 o'clock we reached Watertown. We learned, at the depot, that all the dead and wounded had been brought up to Watertown and were at the different public and private houses in the city.

Repairing to the Planter's House, we found there a number of the victims of the disaster. One, Mr. Ed. SICKLES, died about 8 P. M., after having both legs amputated. Another, Mr. SMEAD, of the Fond du Lac Democratic *Press*, whose scull was fractured, was not expected to live through the night. Others in the same house, had arms or legs broken, but seemed not to be fatally hurt. Mr. PETERSILEA, of Oshkosh, a prominent and influential German citizen of that town, had both his legs crushed to atoms, and could not, it was thought, survive till morning.

The body of U. S. Marshal THOMAS lay in the Common Council Room. He and Mr. A. D. BONESTEEL, of Fond du Lac, were in the "Post-Office" in the baggage car, smoking and chatting together, when the accident occurred. Mr. THOMAS was thrown out of the car, headlong into the ditch, and, it is thought, died from suffocation. Mr. BONESTEEL escaped with a broken leg and some injury to his back. He, with many others of the wounded, returned to Oshkosh and Fond du Lac yesterday afternoon.

MASON, the Express Agent, was horribly mutilated. His head was cut open, and his bowels partly burnt out by coming in contact with the stove.

JOHN LUNT, of Oshkosh, a hardy lumberman, sustained some severe injury on the head; but he kept up his spirits and seemed in no immediate danger; until, when within a mile of Watertown, he suddenly expired.

ELIPHALET SHERWOOD, clerk of the steamer *Pearl*, on Wolf river, was killed instantly. He was a fine young fellow, and a favorite with all who knew him. His sister, who accompanied him, escaped unhurt.

In the confusion, last night, we found it impossible to obtain a correct list of the wounded. We believe, however, that our list includes all the serious casualties.

The train consisted of a 28 ton locomotive, the PERRY H. SMITH, with 6 feet driving wheels, a baggage car and eleven, or twelve passenger cars. The accident occurred on a straight piece of track, in a sparsely settled region, eight miles south of Watertown; and an hour or two elapsed before any help reached the sufferers, except what was afforded by their fellow-passengers and the few residents of the neighborhood. Several of the dead and wounded were not extricated from the wreck, until an hour, or more, after the disaster.

Mr. MINER, of Watertown, was caught between the cars, as he attempted to leap from the platform and instantly crushed to death. His head and shoulders protruded beyond the cars, while the remainder of his body was held between them, as firmly as if in a vice. It was some two hours before his mangled remains could be extricated.

The people and physicians of Watertown were most assiduous in their care of the wounded, and did all in their power to relieve their sufferings.

The physicians who went from Milwaukee were Dr. OLIVER WOLCOTT, Dr. DOUSMAN, Dr. HATCHARD, Dr. GARNER, Dr. SEIBERT, Dr. PERRINE, Dr. ROBINSON, Dr. NAUMAN, Dr. BAKER. Doctor E. B. WOLCOTT who was on his way to Madison and heard of the accident at Milton. Taking the train from Janesville for Watertown, he reached the scene in season to render valuable professional aid.

Dr.'s E. B. WOLCOTT, NAUMAN and ROBINSON remained at Watertown. The rest of our City Physicians, after rendering all the service in their power, returned home at 11 o'clock last night.

We have a special reporter at Watertown who will send us further particulars by the noon train to-day.

ANOTHER ARRIVAL.—The steamship *Arago*, arrived at New York last evening, with London dates to the 19th inst. The political news by this arrival has been anticipated. The London market for breadstuffs is reported firm and unchanged.

THE CITY.

The Grain Trade.

The wheat market was steady to-day, but not very active, and ruling prices were a shade below Monday's quotations. The Railroad receipts were about eighty-five thousand bushels, including flour. Shipments, 2,438 bbls. flour, and 53,000 bushels of wheat, equivalent to 66,190 bushels. The telegraph reports steady, and rather quiet markets at Buffalo and New York.

First and Seventh Wards.

The Republicans of the First and Seventh Wards are invited to meet at the Court-house *this* Wednesday evening, at 7 o'clock, to nominate a candidate for the Assembly, and organize for the election. Let there be a full turn out, a strong nomination and a spirited canvass, and the result will be an auspicious one.

City Railroad.

We are to have a City Rail Road! The contract has been let and the work will be begun forthwith. The contractor is Mr. ALEXANDER EASTON, who has much valuable experience in building City Rail Roads in Philadelphia, Cincinnati, &c. He is the author of a very useful work on the subject. The road is to be finished and ready for use, from Walker's Point to the head of Prospect street, by the first of January next, and to the Hospital on the North Point by the first of July following. The fare, for short, or long distances, will be *five cents.* We do not doubt that this City Rail Road will prove of vast convenience to the public and remunerative to the projectors, and that it will be speedily followed by others.

The following is the "Article of Association" of the Company who are building this road:

ARTICLE OF ASSOCIATION OF THE RIVER AND LAKE SHORE CITY RAILROAD COMPANY.—Be it known, that the subscribers hereunto, have this day associated themselves together according to the provisions of Chapter Seventy-Three (73) of the Revised Statutes of the State of Wisconsin, for the purpose of organizing, establishing, constructing, and maintaining, within the City of Milwaukee, in the State of Wisconsin, a Railway for the carriage of passengers thereon in vehicles to be drawn by horses or mules, and have assumed as the name and style of such Association "The River and Lake Shore City Railway Company."

The Southern terminus of said Railway track to be at or near the intersection of East Water Street with the Milwaukee River, thence to extend Northerly through the streets of said City to some point or points within the City or County of Milwaukee, to be hereafter fixed or determined.

The amount of the capital stock of such Association is Fifty Thousand Dollars ($50, 000) to be divided in shares of Twenty-five Dollars ($25) each.

A LITTLE FISTICUFF BETWEEN JUDGE LARRABEE AND DOCTOR DOUSMAN.—The passengers, hack-drivers, newsboys and others collected at the Milwaukee & Mississippi Railroad depot just before the departure of the afternoon trains yesterday, were amused by a slight round at fisticuff between Judge LARRABEE, M. C. elect from the Third District, and Dr. J. B. DOUSMAN, of this city.—The difficulty, as we learn, originated as follows. A number of gentlemen were in the saloon close by the depot, waiting to go out on the special train to Watertown, amongst whom were Judge LARRABEE and Dr. DOUSMAN.

The Doctor characterized a certain statement that has recently appeared in the *News* as a falsehood, and alluded to that sheet in terms, probably more true than complimentary. The chivalrous M. C. elect, who was in hearing of the Doctor's remarks, immediately took this home, and doffing his outside garments, offered to give the Doctor battle on the spot. Other persons present interfered, however, and a collision was prevented, but as soon as the parties got out on the platform, the Judge pitched into the Doctor, striking him first in the back of the neck. A hard scuffle ensued, but before any serious injury was sustained on either side the belligerents were separated.

Doctor DOUSMAN, we are informed, acted entirely on the defensive, but the Judge seemed determined to have a fight.

PLANS FOR A NEW CITY HALL.—The Board of Councilors on Monday evening adopted the report of a select committee, authorizing the remodelling of the Market House, on Market Square, so as to convert it into a handsome City Hall. The design is to elevate it, erect a large cupola or tower on the top of it, build vaults inside of it, and use it for the city offices, for the Common Council Rooms, and for general city purposes. It can be done probably at less expense now, while labor and materials are so low than it ever can be done for hereafter. The Board of Aldermen have yet to act upon it.

ARRESTS.—Officer RHODEE, the gentlemanly and accommodating keeper of the Station House, furnishes us with the following list of arrests for the month of October: Grand larceny; petty larceny, 11; assault and battery, 15; murder, 1, embezzlement, 1 swindling, 1; threatening to kill, 2; keeping disorderly house, 1; keeping house of ill-fame, 2; shooting in city limits, 9; selling liquor without lisence, 1; vagrancy, 5; disorderly, 51; drunk, 43; for various other petty offences 7. Total, 154.

MUNICIPAL COURT, Nov. 1st.—Alvin Woodbury, charged with assault and battery. He is a conductor on the Mississippi Road, and by scaring a son of Dennis Donnelly, off a gravel train, the boy fell and broke his arm. Deft. discharged. Mr. Finch, the attorney of the M. & M. R. R. appeared for the defence.

J. H. Boyce, drunk, fined $1 and costs.

Fred. Hilderbrand, assault and battery, discharged.

MOHEGA.—"Mohega, the Flower of the Forest," was placed upon the boards for the second time last night, and with a marked improvement in many of the details of representation. The audience was not so large as formerly, but was enthusiastic in its applause, and many among those present, who witnessed the first performance, remarked to us that last night they discovered new beauties in it—a remark by the way, that is a high compliment to the composer.

"THE LAST GLADIATORIAL EXHIBITION AT ROME," is the subject of JOHN P. HALE's lecture before the Young Men's Association, to-morrow, (Thursday) evening, at 8 o'clock, Albany Hall.

PIC-NIC PAPERS—BY CHARLES DICKENS.—A new work full of Dickensonian wit and humor, for sale by TUNIS & Co., Wisconsin street.

Foreign and Domestic Fruits.

EDWARD TRUSLOW, 119 East Water street, is a wholesale dealer in foreign and domestic fruits and confections. Yesterday we spent an agreeable half hour in looking through his establishment. His stock is a large and eminently luscious one, and the agreeable half hour might have been lengthened into a limitless period without any fear of tiring from monotony. It was an oasis in editorial life and views, quite refreshing—if the inspection and mere luxury of contemplation can afford any refreshment. The confectionary here banked up in endless shelves, and soon to be sent flying all over the State, into every town with sweet-toothed inhabitants, and even up to Minnesota and Iowa—gave us a very enlarged idea of the extent and perfection attained in candy manufacture. We were unaware, until yesterday, of the many ingenious shapes and conceits which the sacharineous compound has assumed of late years. We had never before seen so many tempting bon bons of every describable complexion and taste, made to contain liquid sweets, made to envelope fruits and nuts, made to imitate everything that is supposed to excite the palate.

We owned up that there was more sugar plums on earth than was ever dreamed of in our philosophy; that French sweet Arts offered almost as wide a field for observation as French Fine Arts. That TATEOSYAN's Constantinople *confiture* from grapes, was too delicate for any one but DE QUINCY to describe, and that figs stuffed like little turkeys with crystals of aromatic sugar reminded us of ambrosial fruits of which we were wont to read when the Iliad was fashionable. It must be the perfection of sensual delight in the candy eater to bite through a snow white pellet of sugar, and to have his teeth pass successively through layers of stratified and scented compounds, through a little interior sea of pelucid liquid, and catching the flavor of roses and the taste of orange groves: it may be, but it is pre-eminently the triumph of the sweet artist whose skill blended so many delicacies in so small a space. Well, TRUSLOW's supply of French Confectionary for the Western market is one of the most extensive in the Western country.

We next glanced at the raisins from Malaga, and currants in carotels from Smyrna, and figs in drums from Naples, and dates from Arabia, and prunes from Bordeaux, and cherries from Germany, and citron from Leghorn; counted the varieties of nuts for the joke of the thing and even cracked a few of these jokes with Mr. TRUSLOW.

The inspection of the establishment, on the whole tended to give us an enlarged idea of the business of Milwaukee, and a flattering opinion of Mr. TRUSLOW's trade and influence. The country merchants who visit Milwaukee to buy, need go no further than 119 East Water street for foreign and domestic fruits and confectionaries. Mr. TRUSLOW can supply the trade with every detail properly enumerated under that head, and from his already extensive reputation and business, we are led to believe that every bill of goods offered is strictly just what it is represented to be in quality, and in price is as reasonable as can be bought anywhere west of New York.

THE KNICKERBOCKER MAGAZINE for November, shows its familiar cover—which is neither sky-blue nor leaden—on our table. Its contents are unusually rich, and we cannot forbear making an extract or two from old Knick's gossip:

Since the veracious account published by us, on the authority of our neighbor, 'the Colonel,' of the Shanghai rooster in Chatauque County, in this State, who crowed with such energy, that every time he 'saluted the morn' he put his east leg out of joint, and had to be 'set' for an *encore*, we have neither heard nor read of any thing more remarkable than the '*Singular Death of Mr. Henry Block, of Newport, Pennsylvania*,' who, in undertaking to sever the head of a hen, was attacked by a rooster, which spurred him on the hand in an artery: 'About two weeks after the accident he was attacked with intense pain, a sickening sensation of the heart, and his sufferings became insupportable. At this date a remarkable occurrence took place. He drew his entire frame together, as though to gain strength for an act, and his voice broke forth like the crowing of a rooster.—This was repeated several times, and such was the similarity of voices, that the outside listeners asserted their belief that it was a rooster. After four days of indescribable suffering he died, and crowed no more.' 'Very curious,' isn't it?——The following circumstance impresses us as of a very painful and sad character: 'At Columbus, Ohio, last week, a lunatic whose insanity was of a wild type, killed a comrade who roomed with him, cut him up into small pieces, ornamented them with bits of ribbon, and then proceeded to dispose of them to the other occupants of the wards as 'Christmas beef.' When the terror-stricken keeper entered the room, several of the lunatics were eating the remains, and the butcher told him with a leer that the next time he killed he should reserve him a choice cut.' Now, in the Cannibal Islands they ornament a man in this way: tie him, lay him on his back like a turtle, with a label on his abdominal periphery, stating the hour at which he will be served up. But that such things should occur in Christian Ohio, 'overcomes us like a summer cloud, and makes our special wonder.'——In these days of daring *Balloonry* the *Knickerbocker* is to be 'counted in': not that we are going up; but one of our correspondents—one of our *best* correspondents, too has obtained permission to ascend to a great height, over a 'gel-lorious region' of our country; and what he sees and feels, he will make every reader of these pages see and feel also. The privilege of ascent is comparatively cheap; the aeronaut-in-chief only requiring that his companion shall be worth his weight in *gas!*—'Good many folks an't,' he said to our friend; 'but I guess *you* be.' The Yankee sky-voyager was right; he is worth his weight in *gold*, but not counted *as* gold, in the mere standard of money-value——'W. C. B.,' writing to the editor from St. Louis, slips in the following gossipy anecdote: 'Every person in St. Louis knows P. W. J——, magistrate of the —— ward, whose capacity almost equals that of Daniel Lambert. The 'Squire is a great wag in his way, and can't keep it to himself.' One day the writer, while in his office heard him say to a party asking advice, that 'if an hundred men claimed compensation for the same kind of services rendered a party, a judgment in favor of one would be as good to secure the debt as though rendered in favor of the entire hundred;' and added, 'I'll be d—d if it wouldn't!' At that moment a lawyer crossing the threshold of the door, inquired, removing his hat: Squire, is the Court in session?' 'No,' replied P—— solemnly and emphatically, 'no, the Court is *not* in session, or the Court would not have said, 'I'll be d—d!'"

THE GRAND TRUNK RAILWAY of CANADA

PUBLIC NOTICE.—The extension of the above Railway to Sarnia, and the completion of the New Line between Port Huron and Detroit, on the 1st of November next, will form a continuous Road under one Management from Detroit, (Michigan), to Toronto Kingston, Montreal, Quebec and Portland, (Maine); thus establishing a new First Class Route between the Western and New England States.

The connection formed at Detroit with the Michigan Central and Michigan Southern and Northern Indiana Railroads, will enable Freight to be sent through from St. Louis, Cincinnati, Chicago, Milwaukee, St. Paul and all points on the Mississippi River, with greater dispatch than by any other route, as the completion of the Great Victoria Bridge at Montreal, before the close of Navigation, will prevent any interruption to the traffic. *Only one transhipment between Portland and Chicago, Cairo, or St. Louis.*

At Portland the Grand Trunk connects with the Rail roads leading into Boston, also with a First Class Line of Powerful Steamboats which leave Portland and Boston every night.

The Magnificent Vessels forming the Line of the Montreal Ocean Steamship Company, run between Quebec and Liverpool in Summer, and between Portland and Liverpool during Winter, waiting the arrival of the Connecting Trains of the Grand Trunk Railway. Passengers and Freight booked through and put on board free of expense.

At Sarnia (opposite Port Huron), the Company have built extensive Freight Warehouses, and on and after the 15th instant, will be prepared to receive Flour and other Rolling Freight intended to go Eastward by Railway, and store the same, for a reasonable time, Free of Charge.

An Elevator of large capacity is in course of erection at Sarnia, and will shortly be ready for receiving grain.

MARRIED:

In Waukesha, on the 1st inst., by the Rev. W. G. MILLER, Mr. SAMUEL K. WAMBOLD, to Miss AMELIA FERTIG, all of West Granville, Wis.

Now Fertig, in the German tongue,
Means Ready every time,
And I suppose it is the same,
In the matrimonial chime.

But since the knot is firmly tied,
I cannot tell the cause,
Her name has lost its meaning, and
She's not Ready as she was.

But still I trust she'll Ready be,
'Mid the changing scenes of life,
To render every needed help,
Like a true and loving wife. * * *

TELEGRAPH!

REPORTED BY THE N. Y. ASSOCIATED PRESS FOR THE DAILY SENTINEL.

Mexican Affairs.

WASHINGTON, Nov. 1—9 P. M.

Official information from Mexico to the 22d ult., says the Juarez government is awaiting the return of Minister McLean to renew treaty negotiations. As this gentleman commenced them at Vera Cruz, it is considered it would be disrespectful to him to transfer proceedings to Washington.

Gen. Robles had asked an interview with Col. Espio, in command of the Liberal forces, several miles from Cordova, wishing to make some friendly arrangement with him. The latter had 2,300 men and 12 batteries to advance on Tehuacon. There is every probability that that city will be taken, in which event he will soon have a united force of 4,000 to march on Orizaba and Cordova.

The satisfactory manner in which people have received the intelligence of Vidaurri's removal from the command of the army of Northern Mexico is regarded as evidence of their moral strength. His actions not being considered in accordance with constitutional liberty.

Miramon's troops in the City of Mexico were acting purely on the defensive, fearful to leave it, even if they had means to carry on aggressive operations elsewhere. The intercepted correspondence of Marques shows that after the battle of Leon, Gen. Wool wrote to Miramon for reinforcements. Marques was accordingly directed to send him 1500 men and 2 batteries, when the latter replied, stating his utter inability to do so, and threatening to resign his command if Miramon persisted in his order.

Trial of the Insurrectionists.

CHARLESTOWN, VA., Nov. 1—9 P. M.

The Court met at 10 o'clock. Coppee was brought in. Previous to proceeding with his trial, Griswold stated the points on which an arrest of judgment was asked, in Brown's case. In addition to the reasons mentioned yesterday, he said it had not been proved beyond doubt, that he was a citizen of the United States, and argued that treason could not be committed against a State, but only against the general Government. He cites the authority of Judge Storey, also, that the Jury had not found the prisoner guilty of crimes as charged in the indictment, but they find him guilty of offences not charged. They find him guilty of murder in the first degree, when the indictment does not charge him with offences constituting that crime.

Hunter replied, quoting Virginia code to the effect that technicalities should not arrest administration of justice. As to jurisdiction over treason it was sufficient to say Virginia had passed laws assuming jurisdiction and defining what constitutes that crime. Court reserved its decision. Brown was present during the argument; jury sworn in Coppes' case; testimony same as that already published, but more brief. Examination of witnesses for prosecution not concluded at the adjournment. Cook waives examination before Magistrate's Court.

Arrival of the Arago.

NEW YORK, Nov. 1—9 P. M.

The steamship Arago arrived here this evening, from Havre and Southampton.—Her political news has been anticipated, but she brings London dates to the 19th.

Among her passengers are Mrs. Mason and family, Hon. Mr. Kiett and lady, Jerome Napoleon Bonaparte and Prof. Childs, of Cambridge.

The Arago passed the steamer Vanderbilt on the 19th, off Needles, bound in.

LONDON, Oct. 19th.—Consols to-day were quoted at 96 3-8a96 1-2 for money and 96 3-8 for account.

The market for breadstuffs is firm and unchanged.

ARREST FOR FALSE IMPRISONMENT.—John Leonard and Daniel Pridham, clerks on board the steamer *Traveler*, running between this port and Milwaukee, were arrested yesterday and brought before Justice Milliken on a charge preferred by John Wood against the prisoners for false imprisonment. It appeared from the evidence of Wood, and it was admitted by Leonard and Pridham, that some time in the early part of October the complainant came from Milwaukee to this city on board the steamer *Traveler* without paying his fare, he claiming that the company which owned the steamer were indebted to him for services, which he could not collect. He also stated, and the clerks admitted, that he was not called upon for fare. After his arrival here, and during the latter part of the same day, he was met by one of the prisoners at or near the Rush Street Bridge, who invited him to come on board the steamer *Traveler* and he complied. When on board of the steamer, he was seized by the clerks and with other assistance, thrust into the baggage room, and locked in against his earnest protestations. He was kept there until the steamer had sailed, and when out in the lake the prisoners let him out and compelled him to go in the boiler room and pass wood, which he continued to do until the steamer reached Kenosha. Here he managed to jump on to the wharf just as the steamer was putting off and thus escaped. He came to this city and yesterday had Leonard and Pridham arrested. They were held to bail in $500 each to appear before the Recorder to answer.—*Chicago Tribune of yesterday.*

DR. CHURCHILL'S REMEDY.

WINCHESTER'S GENUINE PREPARATION OF THE
HYPOPHOSPHITES
OF LIME AND OF SODA,
(Made from the Formula of Dr. J. F. Churchill,)
FOR THE PREVENTION AND CURE OF
CONSUMPTION!

THE SUCCESS OF THIS NEW REMEDY, (discovered by Dr. Churchill, of Paris,) is obtaining the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases.
This *Remedy* has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act, *as a preservative with regard to Consumption, just as vaccination does with regard to small pox.*

What the Medical Profession Say.

"In no instance have I found the Remedy to fail."—*Dr. Churchill.*
"I have used your preparation of the Hypophosphites *with the most happy effect.*"—C. Fisher, M. D., *Lyerille, Ill.*
"I have been astonished in witnessing the good effects of the Hypophosphites. The statements in your pamphlet are not at all exaggerated. My patient was just entering the last stage of tubercular consumption."—S. Moses, M. D., Honeic Falls, N. Y.
"They exert an important remedial influence over the tubercular disease by *improving the nervous strength and invigorating the nutritive functions.*"—Dr. W. E. Rust, Morristown, N. J.
"I have derived more satisfaction from the use of your Hypophosphites *than from all other forms of medication combined.*"—Dr. Geo. W. Maris, Columbus, O.
"If, on the earliest appearance of the symptoms, the patient takes daily about ten grains of the Hypophosphites, he will speedily find himself in the enjoyment of such health as he, perhaps, had never known in his life before."
"Winchester's Hypophosphites are unexceptional in their preparation."—Am. Druggists' Circular.
"Mr. Winchester is worthy of all confidence, and devotes himself enthusiastically to these preparations in all their variety of combination.—D. Prepared strictly by Dr. Churchill's method."—D. Meredith Reese, M. D., New York.
"LOWELL, O., July 5, 1859.—I have had several cases given up by attending physicians who are now exempt from all the symptoms of pulmonary disease.—I have used the Remedy in my own case, with decided success. It was regarded as hopeless by physicians and friends, and even by myself, under the 'old treatment.' I am now able to ride, in attending the sick, as many miles, perhaps, in a day, as any other physician in the country."—W. F. Clark, M. D.
"The Hypophosphites are most appropriate Remedies in large class of affections resulting from loss of nervous force."—Boston Medical and Surgical Journal.

Dr. Churchill's Work on Consumption,
IS NOW READY.

The Hypophosphites may be used with incurable success in Chronic Bronchitis, Asthma, Dyspepsia, and in all "Nervous" Disorders.

Make no Delay!

Consumptives, in any stage of the disease, should resort immediately to the use of the Hypophosphites of Lime and Soda. "Winchester's Genuine Preparation" (in simple syrup,) in extra large bottles, is "chemically pure"; is the combination proposed by Dr. Churchill "for general use"; and is prepared according to his original Formula.
For sale, Wholesale and Retail, by HENRY FESS, Jr., Milwaukee, who is authorized to supply THE TRADE at New York prices.
For sale at Retail by J. M. ALCOTT, and by all prominent Druggists.

WINFIELD SMITH.
FOR ASSEMBLYMEN,
Fourth Ward—GEO. P. GIFFORD.
Wauwatosa & Greenfield—REUBEN CHASE.

WHO ARE ENTITLED TO VOTE.

Penalties for Illegal Voting—Qualifications of Voters—Extract from the Revised Statutes.

SEC. 1. Every male person of the age of 21 years and upwards, belonging to either of the following classes, who shall have resided in the State *for one year, preceding any election*, shall be deemed a qualified voter at such election:

1st—White citizens of the United States.

2d—White citizens of foreign birth who shall have declared their intentions to become citizens, conformably to the laws of the United States on the subject of naturalization.

3d—Persons of Indian blood who have once been declared by law of Congress to be citizens of the United States, any subsequent law of Congress to the contrary notwithstanding.

4th—Civilized persons of Indian descent, not members of any tribe.

Who Cannot Vote.

(No person under guardianship can vote, nor any insane person, nor one who has been convicted of treason, bribery, or felony, unless he has been restored to his civil rights by law, nor any one who has been engaged in a duel, nor any one who has a bet or wager depending on the election.

Punishment for Illegal Voting.

BY THE LAWS OF 1857.

For voting in a town or ward where the voter does not reside—one to six months in the county jail.

For a non-resident of the State to vote in it—one to two years in State Prison.

For voting more than once at any election—one to two years in State Prison.

For persons voting who are not residents of the State for one year, or not 21 years old, or not citizens of the United States, or having declared their intentions legally to become such—two to six months in the county jail.

For procuring or advising an unqualified person to vote at any poll—a fine of $100 to $500 and one to six months imprisonment.

For procuring or advising a person to vote where he has no right to vote—one to three years in State Prison.

For attempting to influence voters by bribery or by threats—a fine of $500 to $1,000, or imprisonment three to twelve months.

For deceiving a voter by furnishing him with a ballot pretending to be, but not being that which he wishes to vote—one to two years in state prison.

For frauds by inspectors of elections—three to five years in state prison.

Our City Republicans.

We invoke our Republican friends in the city to devote the few days that intervene before election, to a thorough organization of their forces. Our opponents, as has been their custom for some years past, are bragging of the heavy majority they intend to give in the city, and trying to keep up the courage of their party friends in the rural districts by these assurances. But they can get no four or five thousand majority for the Sham-Democratic ticket in Milwaukee County, if the Republican strength is out and the polls vigilantly watched. In every Ward our friends should see to it that good CHALLENGERS are selected to prevent fraudulent voting, and an active RALLYING COMMITTEE appointed to get out the Republican voters on election day. In those districts where our friends have not completed their nominations, no time should be lost in doing so, and as soon as the candidates are selected let them go to work *with a will*, and make a personal and thorough canvass of their respective districts. This done, quietly, speedily and efficiently, and we may safely promise a full Republican vote and a diminished Democratic majority in Milwaukee County.

The Prospect in the Country.

We continue to receive very satisfactory assurances from our friends in the country, as to the political prospects. We have good reason to believe that a large vote will be polled, and a decisive triumph achieved for the Republican cause and candidates. The strong Republican counties will come fully up to the mark. In Rock, Walworth Racine, Grant, Kenosha, Columbia, &c., we shall gain handsomely on the vote of 1857. We anticipate gains, too, in some of the strong Democratic Counties, and can hear of no quarter where we are likely to sustain any material loss. "The skies are bright," and with zeal, activity, union and determination, the Republicans of Wisconsin will win another battle for FREEDOM on Tuesday next.

The Forbes Correspondence.

The letters of Hugh Forbes, over which so zealous an attempt has been made by the Satanic press to get up a flurry of excitement, do not, when we come to see them in full, at all answer expectation, or accomplish the purpose designed. So far from implicating any Abolitionist or Republican in the plot of Brown, they may more properly be said to prove the entire innocence and ignorance of every leading man, who has been named in this connection, of that diabolical scheme. In fact, the latest of these letters is dated May 14, 1858, long before this plot was matured. The correspondence is but one grand series of wailings and lamentations, and of violent objurgations against these very men, and against Abolitionists generally, for refusing to give Forbes money to support his family in Paris. They show Forbes to be a selfish grumbler, an impracticable schemer, and an utterly unreliable and impracticable person every way.—*Cincinnati Gazette.*

The *Gazette* truly describes the "Forbes Correspondence," about which the Pro-Slavery organs have made so great an ado; and the statements of the Hon. JOHN P. HALE and HORACE GREELEY, in regard to FORBES himself, leave no room for doubt, or dispute. The villainous falsehoods which the N. Y. *Herald* and *Journal of Commerce* have originated, and the *News* and other Pro-Slavery organs in this State so eagerly copied, in the desperate attempt to implicate Senators SEWARD, HALE, SUMNER, and other leading Republicans in the Harper's Ferry insurrection, will react against the inscrupulous fabrication.

Another Post-Master Beheaded.

"Ah broken is the golden bowl! the spirit flown forever,
Let the bell toll! a saintly soul floats on the Stygian river."

The Washington *Constitution*, Gen. George Washington Bowman's Constitution, the President's especial organ, comes to us this morning with the following melancholy announcement:

"APPOINTMENTS BY THE PRESIDENT.—John L. Vattier to be Deputy Postmaster at Cincinnati, O., in place of James J. Faran, removed."

This completes the "line of Martyrs" in this doomed State. First the Postmaster at Cleveland was decapitated for doubting the *Immaculate Conception of the Lecompton Constitution*. Soon after, the Postmaster at Columbus found his head rolling in the dust for the same unpardonable sin. Now the Postmaster at Cincinnati is added to the list of political martyrs, and the dismal record is complete. From the Lake to the River the Bloody footprints of persecution are visible, and headless men are seen stalking about like

"Ghosts by moonlight,
Or goblins d——d."

—*Cleveland Plaindealer.*

The Federal office holders in this State have been more fortunate, or are more discreet than the Ohio Postmasters. They have thus far, for the most part, escaped the guillotine; but are just now sorely puzzled by HOBART's desertion of the Administration and his advocacy of DOUGLAS and "Squatter Sovereignty."

DR. CHEEVER has been electrifying the city with his lectures against slavery. There is no slavery here; why does he not devote his labor of love to the South, where it might have some practical effect?, why indeed except that his mission is political—not moral. Mr Hobart said truly at Albany Hall the other evening, "the negro is useful, not only to the Southern planter, but to the Northern politician: he helps his master to raise cotton in Alabama, and my friend here, the Governor, to obtain office in Wisconsin.—*National of yesterday.*

This same Mr. HOBART is *one* of those "Northern politicians," who find the negro so "useful." All through this canvass two-thirds of his speeches have been devoted to proving that he is more of an anti-Slavery man than Gov. RANDALL; that the Democratic party is more hostile to Slavery than the Republican party; and that "Popular Sovereignty" is a more effectual bar to Slavery extension than the Wilmot Proviso; and therefore he has abandoned the latter and adopted the former. But as there is "no Slavery here," why does not HOBART take the *National's* hint and go South to preach his "heretical" Douglas doctrine—"why indeed, except that his mission is political, not moral,"

Sunday Meeting in Belgium.

Correspondence of the Sentinel.

PORT WASHINGTON, Oct. 29, 1859.

MESSRS. EDITORS:—I send you a o-Dem cratic call for a mass meeting. The Democrats have tried a long time to get enough of their party together on a week day, in the town of Belgium, to form a quorum for a Town Caucus; but they have failed. They are ingenious, however, and equally unscrupulous, and some would say indecent. Knowing that the people of that town are in the praise-worthy habit of attending divine service, on Sunday, at the Church, the Democrats call a *political* convention on that day, to be held under the very walls of the sacred edifice. I know it is against the wishes of the people of that town, that their religious meetings on Sundays should be used as a resort of political harbingers.

Yours, &c. B.

DEMOCRATIC MASS MEETING, SUNDAY, OCT. 30TH, 1859.—A Grand Mass Meeting of the Democracy of the town of Belgium, will be held at Holy Cross, on Sunday, Oct. 30th, at 12 o'clock M. The meeting will be addressed by several eminent speakers, both in English and German. Come one, Come all! and hear the issues of the day fairly and impartially discussed, and be prepared to vote understandingly.

A BALTIMORE VIEW.—At an immense meeting of the Americans in Baltimore on Thursday evening, strong speeches were made by JOHN P. KENNEDY and HENRY WINTER DAVIS. The latter said he attributed the affair at Harper's Ferry entirely to the Democratic party—"the party that had involved Kansas in all her troubles; that had invaded that Territory and committed bloodshed and murder; that had repealed the Missouri Compromise; and that had attempted to fasten upon Kansas the Lecompton fraud. The Democracy had not only committed all the depredations, but a Democratic President had sent the the army in that Territory to perfect the outrage. It was these acts on the part of the South, and Southern aggression upon the North, that led to the Harper's Ferry disturbance, which was at the worst only the act of a crazy old fool. He then appealed to the American Party around him to rally to the polls on Wednesday next, and at all hazards to win the victory."

FORTY-THREE HORSES BURNED TO DEATH.—The livery stable of WM. T. WELLS, in Pulaski, Tenn., was consumed by fire on Thursday of last week. There were forty-five horses in the stable at the time—including those belonging to his customers—all of which, except two, perished in the flames. The celebrated stallion "Lieutenant Maury," the property of MOSES S. HURT, of Gales County, was among the lost. He was valued at $4,000.

FATHER AND SON DROWNED.—NELSON SHELDON and son, aged nine years were drowned in Lake Ontario, on Saturday last, while attempting to cross from Sacketts Harbor to Stoney Island. Mr. S. had recently moved from Montague, Lewis Co. to Sacketts Harbor, where his family were staying preparatory to removal to Stoney Island where he intended to settle. In attempting to cross on Saturday, he and his son were drowned.

A FREE PRESS MOBBED IN KENTUCKY.

The Type of the "Free South" Newspaper Pied, and thrown into the River.

From the Cincinnati Commercial, Oct. 29th.

Last evening, about half-past seven o'clock a mob of some thirty men entered the printing office of Wm. S. Bailey, Newport, Ky., and pied a considerable quantity of type, broke one of the presses, and carried off the "forms," on which the outside of the paper was being printed. There were no persons in the office at the time of this visitation, except Mr. Bailey and his family. His four daughters, who set type, and Mrs. Bailey, were present, and begged without avail that their property might be spared. The press would probably have been entirely destroyed but those who undertook the job found it dirty work, the ink spoiling their hands and and clothes. Mr. Bailey was warned that he must leave town, and quit attempting to publish a paper there, or that he would be roughly used and all his property demolished.—When the mob first appeared, they informed Mr. Bailey that they proposed to abolish his incendiary sheet. They considered the community unsafe where such a paper was tolerated and so forth.

Mr. Bailey's paper does not rank very high among the journals of the day, but he and his family have long spent upon it their daily labor, and earned with it their daily bread. The paper has been, we believe, a family production, Mr. Bailey writing the articles, his daughters setting up the type, and his sons making up the forms and working the press. His daughters who have made a humble livelihood in this way, were not, we are informed, exempt from such insults, last night, as foul language addressed to them could convey. That was perhaps the most gross and cowardly part of the pitiful transaction. We really do not think the peace and prosperity of the city of Newport or the State of Kentucky would be imperilled by the continuance of the publication of Mr. Bailey's paper. It might be much better for the town if it were understood that all opinions and their free expression were tolerated there. It is not likely that a single one of the mob owns a slave, though our informant declares the men engaged to have been 'respectable in appearance.'

A suggestion being made as to the police, it was remarked by one of Mr. Bailey's daughters that most of the police were present, and if they did not positively aid in the destruction of property, they certainly did not attempt to do their duty, but were passive spectators of the lawless scene. It is a question whether Mr. Bailey can find any protection under the law, and the thing most likely to happen is the continued suppression for some time of his paper by mob force. The people and authorities of Newport have a grave question to consider. It is whether there is to be freedom of speech and of the press in their midst—whether an industrious family, who offend against no municipal regulation, nor law of the commonwealth of Kentucky, shall be protected in their property; or whether there is to be intolerance on the subject of slavery, backed by mob violence.

Special Dispatch to the New York Times.

BALTIMORE, Thursday, Oct. 27.

Monument Square this evening reminds one of the scenes of 1840. Some ten or fifteen thousand Americans are out with hundreds of transparencies.

Henry Winter Davis endeavored to account for the violence at Harper's Ferry. He attributed it entirely to the democratic party—the party, he said, that had involved Kansas in all her troubles; that had invaded that Territory, and committed bloodshed and murder; that had repealed the Missouri Compromise; and that had attempted to fasten upon Kansas the Lecompton fraud.—The Democracy had not only committed all these depredations, but a Democratic President had sent the army into that Territory to perfect the outrage.

That the Harper's Ferry Insurrection is attributable directly to the Kansas outrages and murders, is as certain as that CAUSE produces EFFECT. Old Brown was hunted and hounded as if he were a wild beast. They murdered his Sons, maddened his Daughter, and rendered his home and hearth desolate. Fanatical and frenzied, he conceived and attempted to execute the mad scheme for which the Democracy hold others, instead of themselves responsible. If Pierce and Buchanan, with their respective Cabinets, were arraigned for complicity in Kansas murders, the proof against them would show what provocations "Ossawottamie Brown" had for the delusion and desperation into which he was driven.—*Albany Journal.*

"OLD BROWN's" CARPET BAG.—The contents of the Carpet Bag of Ossawatomie Brown, which the servile Press is giving to the world, vindicates Republicans from any connection with or sympathy in the insane and wicked designs of madmen. From Republicans he received neither aid, encouragement or approval.

The letters of a Colonel or Mr. Forbes, published in the *Herald* and *Express*, under flash head-lines, show him an importunate adventurer, whose reiterated appeals to Republicans, for money, were unavailing. How far the imputations of this sturdy beggar against Amos Lawrence, are true, we know. The probabilities are against their truth, for Mr. Lawrence has too much honesty and sense to engage in such miserable schemes. But as a Fillmore man and Castle Garden Union Saver, we leave his defence to the N. Y. *Express.* —*Albany Journal.*

A FRENCH provincial journal says that the military divisions and sub-divisions of France are about to be organized on a new footing, and that the government intends to make every great fort a centre of a division or subdivision, in order that at a given moment the action of the land and sea forces may prove prompt and efficacious.

A Card—"Col. Forbes."

From the N. Y. Tribune.

A certain Mr. H. Forbes—sometimes (I know not why) called "Col. Forbes"—fills a close page of the *Herald* with what are there characterized as "Most Important Revelations" respecting Old Brown and the complicity of leading Republicans in his recent operations. Into this labored and successful attempt at self-exposure by "Col. Forbes," I find my name most wantonly dragged. My only reason for noticing the performance is a belief that the public may infer from the facts in my case what is the probable truth with respect to others whose names have been dragged into these "Most Important Revelations."

This Forbes appeared in our city sometime after the explosion of the European Revolutionary Uprising of 1849, and claimed to have borne an important part in that movement. Of course, he was needy, and the *Herald* says he was "at one time a reporter or translator on the *Tribune*." This is quite probable, though I do not recollect it.

Some time in 1856, (I think it was) I was apprised that he was going to Kansas to help the Free-State men, then threatened with annihilation by the Border Ruffians of Missouri, backed by federal functionaries and troops. Lawrence had then been twice beleaguered and once sacked; Ossawattamie had been twice ravaged and burned; Leavenworth had just before been swept of Free-State men by a Missouri raid—William Phillips being butchered while defending his own house, his brother badly wounded and captured, while those who made no resistance were sent down the river at an hour's notice. As Forbes professed to be a capable and experienced military officer, especially qualified for a guerilla or border warfare, and as he had always claimed to be an earnest Red Republican and foe of every form of Human Slavery, I thought his resolution natural and commendable. Knowing him to be poor, I gave him $20 as he was starting; others gave him larger sums; how much in all, I do not know; but I think his total receipts from friends of Free-Kansas on account of his resolve, cannot have fallen below $700. He went—was absent some months—came back—that is all *I* know of his services to the Free-State cause in any shape. Whether because he was not needed, or was not trusted, or was found incompetent, I do not know—I only know that he did nothing, and was practically worth nothing. I believe he spent part of the money given him in printing a pamphlet embodying his notions of guerilla or partizan warfare—of course, no dollar ever came back. I think I heard of him before his return, clamoring for more money.

In due time, he re-appeared in New York, and came to me (as to others) with complaints that he had been deceived, misled, swindled, his family (in Paris) turned into the streets to starve, &c., &c. I tried to ascertain *who* had deceived him, what promises made to him had been broken, &c., but with little success. All that I could make out was that some one—he now says it was Old Brown—had promised him something in the way of pecuniary recompense for his services, which had not been made good, and that his family were consequently reduced to the brink of starvation.

To this hour, I have never learned *what* Brown (or any one else) promised Forbes, nor how far the promiser professed to have the right to commit others. I do not believe that John Brown ever willfully deceived him or any one else. I am very sure that no one was ever authorized to engage the services of "Col. Forbes" in behalf of the Free State men of Kansas on condition that said Forbes should be authorized to charge his own price for those services and draw at pleasure on some responsible party for payment. I have never heard any one's version of the matter but Forbes's; and I confidently infer from this that, if there was mutual misunderstanding and dissapointment in the premises, the employing party had decidedly the worst of it.

Forbes says that *I*—in response to his complaints and representations—"argued that I (he) had no legal claim according to the lower law." It really seems to me that there was no room for argument on that point. He further says that I told him he "ought to have known that engagements of this sort are never kept—never are meant to be kept." As I have not to this hour been able to ascertain what "engagement," if any, was made with him; nor by whom, this cannot be the full and fair purport of my remark. I *did* urge that, if he had a contract with any one, whereby others were held bound to pay him money, whether in definite amounts, he ought to be able to show some other evidence of the fact than his own unsupported assertion. Had Brown been any how indebted to Forbes for services to the Free State cause, I cannot doubt that he (B.) would have settled with him, and at least acknowledged the obligation in writing. Had Brown stipulated that others should pay him money, he (B.) would at least have settled the account, and given him (F.) an order on the person who was to pay it. But Forbes showed no contract, no acknowledgement of indebtedness, no evidence that any one but himself considered the friends of Free Kansas indebted to him to the amount of one farthing. The whole matter showed on its face that whoever employed Forbes felt that F. had got quite enough out of the Free State men. If, then, I answered him that he "had no legal claim, and that engagements of *that* sort are never kept"—that is, such "engagements" as he appeared to rest his claim upon—was I not right?

Since that conference—more than two years since—I do not recollect that I have till now been favored with an overplus of "Col. Forbes'" attentions. I thank him for their absence, and trust it may continue.

The Fifth Avenue Hotel Committee, in their long Manifesto, roundly assert that

"Letters written to a Mr Forbes, of this city prove that Republican Senators of the United States were made cognizant of the invasion intended, but concealed the secret within their own breasts, and refrained from divulging it to the public authorities."

Of course, there are no such letters—that I stated yesterday—but, since Forbes's rocket is exploded, there is not even a pretense of any. Forbes says that, just eighteen months ago, he carried his budget of complaints to Senators Seward and Hale, from whom he got nothing, as was to have been expected. He evidently would like to make out that Old Brown (then, and for ten months afterwards, in Kansas,) had some such scheme in his mind as that which recently collapsed at Harper's Ferry, and that he betrayed this to Gov. Seward; but he does not say it. He admits that he said nothing to Mr. Hale beyond unfolding his budget of complaint as to pay for his services to Kansas, or Old Brown's contract therefor.

What do the Fifth Avenue Hotel Committee propose to do in the premises? They have made a broad and weighty accusation against "Republican Senators," and affirmed that "letters to a Mr. Forbes" "prove" that charge. There is not even a shadow of evidence to sustain this allegation. Will they, then, retract it? If not, what becomes of their pretense that they have organized to purify and elevate our current politics?

I close with a single word of advice to the Fifth Avenue Hotel Committee and the Pro-Slavery party generally, viz: In your dealings with Col. Forbes, be sure you have a plain contract, put down in clear black and white. Even thus you will probably find that he costs more than he comes to; in any other case, you certainly will.

Respectfully,
HORACE GREELEY.

GRAND TRUNK ITEMS.—The submarine cable was laid across the St. Clair river on Monday afternoon, and the connection made on each side, so that there is now direct telegraphic communication from here to Portland, Me.

The track of the road is now laid to Black River, and engines are daily passing over it. The temporary bridge is nearly completed over the river, and the track from there to the Fort is being laid; so that engines will run to the St. Clair River within a week.

The anchor, cable, &c., for the swing Ferry Boat is now at Point Edwards. The cable consists of two huge chains, the links being made of wire 2 1-2 inches in circumference, and about 2,000 feet of iron rod 2 1-4 inches in circumference. One of the chains is to be attached to the anchor, the other to the boat. The rods are to form the center of the cable. The weight of the anchor is about four tons.

Since writing the above we learn that the track is laid across the temporary bridge, and that a train will to-day pass over the road from Detroit to Fort Gratiot. We congratulate our Detroit friends upon thus being put in communication with the "centre of the world."—*Port Huron Press, Oct. 29th.*

THE UNDERGROUND RAILROAD—A DOZEN FUGITIVE SLAVES FROM VIRGINIA ON THE TRAMP.—The operations of this "institution" do not usually come to the knowledge of the public, as there is no law requiring its directors to make verified statements of the "freight and passengers" it conveys. Viewed in a financial light, the business of the road is of considerable importance. On Saturday evening last, not less than fifteen thousand dollars worth of "property" passed through this city on a train of the "Underground," fairly rivalling the Central. But the most wonderful part of the story is, that in the transit across the Suspension Bridge at Niagara, the "property" suddenly became metamorphosed into about a dozen, smart, intelligent, young and middle-aged men and women. These "chattel personal" were part of a large shipment which left Alexandria, Va., about the time of the Harper's Ferry insurrection.

"WHY," said a lover to his mistress, "are you like that hinge?"

"Can't guess."

"Because you are something to a door (*adore*.")

PROCLAMATION—THANKSGIVING.

ANOTHER YEAR, with its varied experiences and vicissitudes, has nearly gone, the seed time and harvest have passed away, and the products of the earth more abundant and excellent, in many respects than usual, have been gathered in. Our State has been favored by an overruling Providence with exemption from pestilence, or any prevailing disease, and the commercial and financial distress, under which our land has so long suffered, seems to be approaching an end. As a State we have been free from evil disturbances, and men have gone about their daily avocations in peace and quietness. As a nation, too, we have been exempted from the scenes of blood which have been the result in other lands of the shock of contending hosts.

It is right that we should, as a people, render the tribute of our thanks to the Author of all good, for the establishment and continuance of our free institutions, for the general health and prosperity of our people, for the blessings of peace, for the privileges of free education, and freedom to worship God according to the dictates of conscience, and for all the unnumbered blessings, individual and national, so bountifully showered upon us.

Therefore, in accordance with the time-honored usage, I do hereby recommend to the people of Wisconsin that they observe THURSDAY, THE 24th DAY OF NOVEMBER NEXT, as a day of THANKSGIVING, and that, abstaining from their secular avocations on that day, they unite in their several localities in grateful praise to Almighty God, for his constant care and abundant mercies.

In testimony whereof, I have hereunto subscribed L. S. my name and caused the Great Seal of the State to be affixed.

Done at Madison, this 25th day of October, in the year of our Lord one thousand eight hundred and fifty-nine.

By the Governor,
ALEX. W. RANDALL.

Destructive Fire in New Orleans.

From the New Orleans Delta, Oct. 24.

Another terrible conflagration, equaling in extent and value the property destroyed by the recent disastrous fire in the Third District, took place last night in the neighborhood of the new Magazine street market.

Over the same ground (but unfortunately not within the same limits) where the fire spread, when the Magazine street market was burned about a year ago, the conflagration raged last night. And strangely enough the fire started in the same place—in the row of new buildings that had been erected in place of those destroyed before.

The flames were first discovered about 11 o'clock, in the millinery store of Miss Mary Vaux, on Magazine street, between Felicity and St. Mary streets. The alarm was quickly given, and the firemen were at the scene in quick time, but they had to stand at the brakes, waiting a long time in vain for water; and when they did get it the supply was only along Felicity street—to which the fire did not reach—the water works not being above that street, the boundary of the First and Fourth districts.

The row of building's known as Hasting's Row, which were occupied by small stores, were soon on the road to destruction. The fire then spread in the rear of these tenements, and broke out through to St. Mary street, and about the same time across Magazine street.

The flames that made headway to St. Mary street, opposite the market, carried with them the fiercest spirit of destruction, for they soon seized on the market building, and when that got fairly burning, the blocks on every side speedily caught, and then the conflagration became terrific in appearance, as well as in the desolation it was accomplishing.

The Elizabeth Female Orphan Asylum, and St. Alphonsus Church, on the square bounded by Josephine, Magazine and Constance streets, were in imminent danger, but the exertions made to save these fine buildings were happily successful.

The amount of personal property removed out of the reach of the fire was very large.—It is impossible to get anything like a correct idea of the loss, but it is estimated it may not be considerably below half a million of dollars.

A RAILWAY TRAIN STOPPED BY MUSHROOMS.—"I was traveling last week," writes a correspondent, "by a railway on the English side of the borders of South Wales, when we happened to pass a field spangled with a most luxuriant growth of mushrooms. I had hardly remarked the circumstance to my companion when we felt the train suddenly stop, and looking out to the front we saw, to our astonishment, the driver jump off the engine, vault the fence, and proceed to fill his hat with the treasure. In a moment the guard was over the fence following his example, which, as may be supposed, was infectious, for in less than half a minute every door was thrown open and the field covered with passengers, every one of whom brought back a pretty good hatful. We begged the guard to have the place entered for the future in his line of route as "The Mushroom Station."

CITY AUCTION ROOM.

I HAVE THE FOLLOWING PROPERTY which I want to exchange for Dry Goods, or any other description of Goods:
First—A good Farm in Juneau County, Wisconsin; twenty-five acres under fence and in cultivation: a log cabin, such as we all were accustomed to live in when we first came to this country, twenty-five years ago; a good stream of water running thro' the entire farm: 40 acres of it is heavy timber. A large settlement surrounds the said farm.
Second—I have that large brown house, opposite Post Office on Wisconsin st., which contains about twenty-five rooms and rents for about one thousand dollars.
Third—I have two horses, one perfectly sound, kind and gentle: the other is somewhat foundered; but take the pair together and they make a good team for family use. Also, in connection, I have a carriage, buggy, wagon, sleigh, two sett harness, two side saddles, two mens' saddles, three bridles, whip, &c., &c.
Fourth—I have three hundred acres of school land in Marquette County, Wis. This land has been selected, as all other school lands. Now, all the above property I will exchange for Dry Goods, &c., or for any good city property. The said property is free from all incumbrances.

Catarrh! Catarrh! Catarrh! Catarrh!
What is it? How Cured?

Thousands of persons suffer all sorts of annoyance from Catarrh. Most people know what its inconveniences and results are, yet but few know how it can be cured. It is simply a chronic irritation, and often enlargement of follicles, and consequent thickening of the mucous membrane, lining the nasal cavities, frontal sinuses, and posterior nares, and sometimes extending into the throat and lungs. From this result tightness and often vertigo of the head, obstructed nose, or a profuse flow of mucus, loss of smell, nasal voice, and often impaired hearing and taste.

The old-school remedies have never been able to do anything for it. Nasal infections and inhalations are as painful and expensive as they are generally worthless. Yet HUMPHREYS' CATARRH SPECIFIC, a simple *Sugar Pill*, taken two or three times per day, promptly cures the milder cases; cures at once all colds in the head, and radically cures, by persevering use, the most obstinate cases, as is proved by the experience of hundreds.

Price, with full directions,
FIFTY CENTS PER BOX.

N. B.—A full set of HUMPHREYS' HOMOEOPATHIC SPECIFICS, with Book of Directions, and twenty different remedies, in large vials, morocco case, $5; do, in plain case, $4. Family case of fifteen boxes and book, $5.

These remedies, by the single box or case, are sent by mail or express, free of charge, to any address, on receipt of the price. Address,

THE PUBLIC BLESSING WHICH IS now so universally admitted to exist in Moffat's Life Pills and Phœnix Bitters, is every day demonstrated by their astonishing efficacy in the cases which they are announced to cure. All the complaints of the stomach and bowels, weakness of the digestive organs and of the system generally, bilious and liver affections, night fevers, head aches, piles costiveness, consumption, rheumatism, scurry, impurity of the blood, or blotched and sallow complexions, soon yield to their curative properties. A single trial invariably secures them the title of the best family medicine now before the public. For sale by the proprietor, W. B. LADY FRANKLIN.

The following beautiful poem graces the columns of the *Independent*. It is from the pen of ELIZABETH H WHITTIER, the Poet's sister. May we not now say of him, the brother of the poetess?

Fold thy hands, thy work is over!
Cool thy watching eyes with tears,
Let thy poor heart, over-wearied,
Rest alike from hopes and fears.

Hopes, that saw with sleepless vision,
One sad picture fading slow,
Fears, that followed, vague and nameless,
Lifting back the veils of snow.

For thy brave one, for thy lost one,
Truest heart of woman, weep!
Owing still the love that granted
Unto thy beloved sleep.

Not for him that hour of terror,
When the long ice-battle o'er—
In the sunless day his comrades,
Deathward trod the Polar shore.

Spared the cruel cold and famine,
Spared the fainting heart's despair—
What but that could mercy grant him?
What but that has been thy prayer?

Dear to thee, that last memorial,
From the cairn beside the sea;
Evermore the month of roses,
Shall be sacred time to thee!

Sad it is the mournful yew-tree
O'er his slumbers may not wave;
Sad it is the English daisy
May not blossom on his grave.

But his tomb shall storm and Winter
Shape and fashion year by year—
Pile his mighty mausoleum
Block by block, and tier on tier.

Guardian of its gleaming portal
Shall its stainless honor be,
While thy love, a sweet immortal,
Hover o'er the Winter sea!

THE TRANS-ATLANTIC BALLOON.

Preparations of Mr. Lowe—Appearance of the Balloon—The Inventor and his Plans—Numerous Applications for a Balloon Trip—The Trans-Atlantic Trip.

Owing to necessary and unforeseen delays, Mr. Lowe was not able to commence the inflation of his monster balloon, the "City of New York," this morning as was expected. The boat that is to be attached to the balloon has not yet arrived from Green Point, and the large gas pipes that will conduct the required gas from the subterranean pipes in 42d street to the middle of the Crystal Palace grounds are not yet fully laid. Owing to those circumstances, the process of inflation will not be commenced till next Monday, when the grounds will be opened to the public.

A visit to the balloon this morning exhibits the ærial monster in an astonishing, if not prepossessing light. On a huge bed of straw that covers the floor of the tent, lies the collapsed material of which the City of New York is formed. It is of oiled muslin, the seams carefully joined and covered, and the whole of a dirty yellowish color. Some men were engaged in securing in its place the valve at the top of the balloon, the aperture of which is about eighteen inches in diameter. Depending from the top of the central pole that supports the tent is the netting that will cover the balloon when finished. This netting, though now only presenting the appearance of an inextricably confused mass of tangled rope, is 200 feet wide. About a dozen workmen are engaged on the premises, including those of the Manhattan Gas Company, who have already carried the gas pipes to the centre of the tent.

Mr. T. S. Lowe, the inventor and principal proprietor of the ærial ship, is personally attending the arrangements. He is an æronaut of considerable reputation, especially in the West, and has made thirty-six ascensions, which, as none of them resulted in a broken head, neck, or bones, may be considered as successful. In appearance, Mr. Lowe presents little to betoken the adventurous experimenter who seeks to ride upon the winds. Tall and slender, with a blue eye, black moustache, and gentlemanly manner and conversation, he looks more like a quiet professional citizen, than like an "intrepid æronaut." Of course, he is quite sanguine as to the success of his voyage, though he acknowledges its dangers. He expects to exhibit his balloon at the Crystal Palace grounds for a couple of weeks before starting on the long-promised trans-Atlantic voyage.

Already a number of applications have been made for the privilege of accompanying Mr. Lowe on this daring voyage, and every day a new adventurer makes the same request. It is, however, highly probable that the most of these applicants would back out at the critical moment. The number of persons that will accompany Mr. Lowe, will depend upon the success of the inflation and the buoyant powers of the gas used. At the most, not more than eight could be accommodated in the circumscribed space afforded by the basket or car attached to the balloon.

It is rumored, however, among the knowing ones, that the first voyage Mr. Lowe will take in the "City of New York," will be a purely experimental one, and not an attempt to cross the ocean. The æronaut, however, in any event, will make this attempt at an early date. Of course he cannot tell where he will land, but he expects to drop down somewhere in the South of France, unless unexpected currents of air should take his balloon and its occupants elsewhere.

The interest taken in the success of this scheme is manifested by the numbers that daily call at the grounds, though, as yet, no advertisements or notices have been published directing the public to the spot. Mr. La Mountain is in the city with a view of examining the ærial ship, and being present at the inflation. Although the two æronauts have so long been engaged in the same peculiar business of ballooning, Mr. La Mountain and Mr. Lowe have never yet met.

The Utility of Refuse Things.

The prussiate of potash is made in large quantities in Cincinnati, from hoofs, horns, and other refuse of slaughtered grunters.

Cow hair taken from the hides in the tanneries is employed for making plastering mortar to give it a sort of fibrous quality.

Sawdust is daily sold in our streets for sprinkling the floors for markets. It is also used for packing ice for shipment.

The rags sold of worn out shirting, calico dresses, and the waste of cotton factories, are employed to make the paper upon which these lines are printed.

Old ropes are converted into fine note paper, and the waste paper itself which is picked up in the gutters of our streets is again converted into broad, white sheets and thus does duty in revolving stages.

The parings of skins and hides and the ears of cows, calves and sheep are carefully collected and converted into Peter Cooper's famous glue, made out at "Old Bushwick."

The finer qualities of gelatine are made from ivory raspings—the bones and tendons of animals.

Bones converted into charcoal by roasting in retorts are afterwards employed in purifying the white sugar with which we sweeten our coffee, &c.

The ammonia obtained from the distillation of coal in making gas, is employed for saturating orchil and cudbear, in making the beautiful lilac colors that are dyed on silk and the fine woolen goods.

Carbonic acid obtained in the distillation of coal tar is employed with other acids to produce beautiful yellow colors on silk and wool.

The shavings of cedar wood used in making pencils are distilled to obtain the otto of cedar wood.

Brass filings and old brass kettles are remelted and employed to make the brass work of printing presses and pumps.

Old copper scraps are used in the construction of splendid bronze chandeliers for illuminating our churches and the mansions of the wealthy.

Old horse shoe nails are employed to make the famous steel and twist barrels of fowling pieces.

Coal tar is burned and made into lampblack, used for printer's ink, common black paint, and blacking for shoes, &c.

The cast-off gauze dresses of Parisian belles are purchased for a mere song and sent to the West India Islands, where they perform a second duty in decorating the sable daughters of the tropics.

Oyster shells are burned in kilns and afterwards used in making cements, their base being pure lime.—*Scientific American.*

The menagerie in the Garden of Plants, in Paris, has recently been increased by the birth of two more yaks, so that thirteen of these animals have now been bred in the establishment from the male and two females brought from Asia, to Paris, by M. de Montigny. They are all in a thriving condition, and the climate of France seems to suit them just as well as that of Thibet, whence they were brought. A lama has also been born recently in the menagerie, making the seventeenth reared there from the pair obtained from England two years ago, in which time they have already reached the third generation.—*Galignani.*

A BLOODLESS VICTORY!!!

1,000,000 BOXES SOLD OF
MOREHEAD'S
MAGNETIC PLASTER

THIS ENORMOUS QUANTITY OF this Invaluable Remedy has been purchased by citizens of the United States during the short time it has been before the public. The reason for this extraordinary success is simply in the actual truth and value of the article. No one buys the MAGNETIC PLASTER without becoming its friend. It performs all that is promised, and carries with it its own recommendation. Truly this is a Victory—peaceful and bloodless—but we believe not less glorious than the triumphs of war, with its train of carnage and desolation.

The MAGNETIC PLASTER is undoubtedly the Greatest Strengthener and Pain Destroyer that Science has yet discovered. If you put this Plaster anywhere, if Pain is there, the Plaster will stick there until the Pain has vanished. The Plaster magnetises the Pain away, and
PAIN CANNOT EXIST WHERE THIS PLASTER IS APPLIED.

Rheumatism, Lameness, Stiffness, Weakness, Debility, Nervousness, Neuralgic, Dyspepsia, Coughs and Colds, Pains and Aches of every kind, are IMMEDIATELY RELIEVED, and, with a little patience, PERMANENTLY CURED, by the magical influence of the MAGNETIC PLASTER. It is the simplest, surest, safest, pleasantest and cheapest remedy in existence. Its application is universal—equally to the strong man, the delicate woman, and the feeble infant. Its use is agreeable, and without annoyance or trouble. Its price is within reach of all—rich or poor; all may have it, and all should have it who are sick, and suffering in any way.

FARMERS and PLANTERS should always be supplied with the MAGNETIC PLASTER. It will be the Good Physician in any household, ready at all times and at instant notice.

Put up in air-tight tin boxes. Each box will make six to eight plasters, and any child can spread them. Price, twenty-five cents per box, with full and plain directions. D. C. MOREHEAD, M. D.,
Inventor and Proprietor, 19 Walker St., N. Y.
MOREHEAD'S MAGNETIC PLASTER IS SOLD BY ALL DRUGGISTS AND DEALERS IN GENUINE MEDICINES EVERYWHERE. dec13h526d3tawawly

Dr. Brunon's Bitters

Have, from their excellent qualities, been recommended by the MOST EMINENT PHYSICIANS as a most valuable and never failing remedy for
DYSPEPSIA, DIARRHEA,
DEBILITY, HEARTBURN,
BILIOUSNESS, JAUNDICE,
LIVER COMPLAINTS, BLOOD DISEASES,
&c., &c., &c.,
Are also a sure and certain preventive against
Fever and Ague, Cholera, Sum'r Complaint, &c
and is the most valuable and efficacious TONIC AND APPETITE-CREATING COMPOUND ever offered to the public.
By the use of these BITTERS ALL DISEASES OF THE BLOOD will be thoroughly eradicated, and all those who are suffering from early excess and PROSTRATION OF THE PHYSICAL ENERGIES will be restored to a ROBUST AND VIGOROUS STATE OF HEALTH.
The DIGESTIVE ORGANS will be stimulated and PERMANENTLY STRENGTHENED, APPETITE will be created, and the DEBILITATED SUBJECT RESTORED TO NEW LIFE.
This remedy has a very agreeable taste, and will be taken readily by children as well as adults.
All persons suffering from any of the above complaints are invited to try DR. BRUNON'S BITTERS.
Dose.—For an adult, a small wine-glassful 3 times a day; for a child, a small tea-spoonful twice a day.

SOYER'S SULTANA SAUCE.
For Hot or Cold Dishes of all Kinds.

THIS MOST DELICIOUS and appetising Sauce was invented by the renowned "SOYER," on his return from the Crimea, and since his decease is manufactured by CROSSE & BLACKWELL, London, from the original recipe. The manufacturers simply ask for it a trial, convinced that it must add to the already large consumption, and that it will prove itself unequaled, either as a stimulus to the appetite or an aid to digestion.

Opinions of the London Press
"We recommend our correspondent to try MONSIEUR SOYER's new Sauce, entitled the 'Sultana's Sauce.' It is made after the Turkish recipe; its flavor is excellent, and it affords considerable aid in cases of SLOW AND WEAK DIGESTION."—*The Lancet.*
"The Sultana's Sauce is savory, piquant, and spicy; a happy combination of flavors and essences worthy of the delicate taste of a Sultana, the genius of a Soyer, and the universal patronage of a discriminating Public."—*Observer.*
"A concentration of all the piquant resources of Turkey and Russia."—*United Service Gazette.*
"As a titillater of the appetite this Sauce stands alone. It is a most valuable adjunct to Fish, Flesh, or Fowl, and should be placed on every dinner table."—*Atlas.*
"The Sultana sauce is a most delicious zest."—*Morn Chronicle.*

Richardson's Irish Linens, Damaks,
DIAPERS, &C.—CONSUMERS OF RICHARDSON'S LINENS, and those desirous of obtaining the GENUINE GOODS, should see that the articles they purchase are sealed with the full name of the firm, J. N. RICHARDSON, SONS & OWDEN, as a guarantee of the soundness and durability of the Goods.
This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable while purchasers can be imposed on with Goods of a worthless character.

Joseph Benedict, Utica, N. Y.; Wm. Bristol, Esq., Utica, N. Y.; A. S. Pond, Esq., Utica, N. Y.; James Plunkett, Esq., Nashville, Tenn.

LIST OF SPECIFIC REMEDIES.
No. 1.—For Fever, Congestion, and Inflammation.
No. 2.—For Worm Fever, Worm Colic, Wetting the bed.
No. 3.—For Colic, Crying, Teething, and Wakefulness of infants.
No. 4.—For Diarrhea, Cholera Infantum, and Summer Complaints.
No. 5.—For Colic, Gripings, Dysentery, or Bloody Flux.
No. 6.—For Cholera, Cholera Morbus, Vomiting.
No. 7.—For Coughs, Colds, Influenza, and Sore Throat.
No. 8.—For Tooth-ache, Face-ache, and Nuralgia.
No. 9.—For Headache, Vertigo, Heat and Fullness of the Head.
No. 10.—DYSPEPSIA PILLS.—For Weak and Deranged Stomach, Constipation, and Liver Complaint.
No. 11.—FOR FEMALE IRREGULARITIES, Scanty, Painful, or Suppressed Periods.
No. 12.—For Leucorrhea, Profuse Menses, and Bearing Down of Females.
No. 13.—For Croup, Hoarse Cough, Bad Breathing.
No. 14.—SALT RHEUM PILLS—For Erysipelas, Eruptions, Pimples on the Face.

C.—For Catarrh, of long standing or recent, either with obstruction or profuse discharge.
W. C.—For Whooping Cough, abating its violence and shortening its course.

In all acute diseases, such as Fevers, Inflammations, Diarrhea, Dysentery, Croup, Rheumatism, and such eruptive diseases as Scarlet Fever, Measles, and Erysipelas, the advantage of giving the proper remedies promptly is obvious, and in all such cases the specifics act like a charm. The entire disease is often arrested at once, and in all cases the violence of the attack is moderated, the disease shortened, and rendered less dangerous.

Coughs and Colds, which are of such frequent occurrence, and which often lay the foundation of diseased lungs, bronchitis and consumption, may be at once cured by the Fever and Cough Pills.

In all chronic diseases, such as Dyspepsia, Weak Stomach, Constipation, Liver Complaints, Piles, Female Debility, and Irregularities, old Headaches, Sore or Weak Eyes, Catarrh, Salt Rheum, and other old eruptions, the case has specifics whose proper application will afford a cure in almost every instance.—Often the cure of a single chronic disease, such as Dyspepsia, Piles or Catarrh, Headache or female Weakness, has more than paid for the case ten times over.

BININGER'S
OLD LONDON DOCK
GIN
A. M. BININGER & CO.,
(ESTABLISHED 1778.)
SOLE IMPORTERS,
No. 338 Broad Street, New York.

THIS DELICIOUS TONIC, ESPECIALLY for the use of the
Medical Profession and the Family,
Possesses those INTRINSIC medicinal properties, [Tonic and Diuretic] which belong to an
OLD AND PURE GIN.

The business of manufacturing spurious Gins, and offering them as beverages, under the titles, "Aromatic," "Cordial," "Medicated," &c., has become so common that the public are justly suspicious of nearly everything that is offered under similar forms, and the trade has thus been brought into discredit. It has remained for our house (established in 1778) to supply the pressing public need, and to inaugurate a new era in the history of the Trade. We trust that our established reputation—founded upon eighty years of experience—abundantly vindicates our claim to public confidence.

N. B.
A comparison of "Bininger's Old London Dock Gin" with others bearing similar names, will establish its superiority, and make other Caution unnecessary.
Put up in Quart Bottles, in Cases of one and two dozen each, and sold throughout the world by Druggists, Grocers, &c.

MORE TO BE ADMIRED THAN THE
RICHEST DIADEM
EVER
Worn by Kings or Emperors.

What? Why a Beautiful Head of Hair.
BECAUSE IT IS THE ORNAMENT GOD Himself provided for our race. Readers, although the rose may bloom ever so brightly in the glowing cheek, the eye be ever so sparkling, the teeth be those of pearls, if the head is bereft of its covering, or the hair be snarled or shriveled, *harsh and dry*, or worse still, if sprinkled with gray, nature will lose more than one half her charms. Prof. Wood's Hair Restorative, if used two or three times a week, will restore and permanently secure to all such an ornament. Read the following and judge. The writer of the first is the celebrated Pianist, Thalberg:
DR. WOOD:— New York, April 19, 1858.
Dear Sir—Permit me to express to you the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your "Hair Restorative" it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable.
I am, dear sir, yours truly,
S. THALBERG.

"Drych a'r Gwyliedydd."
Welsh Newspaper office, 13 Nassau st.,
April 12, 1858.
PROF. O. J. WOOD:—*Dear Sir*,—Some month or six weeks ago I received a bottle of your Hair Restorative and gave it to my wife, who concluded to try it on her hair, little thinking at the time that it would restore the gray hair to its original color, but to her as well as my surprise, after a *few weeks'* trial it has performed that wonderful effect by turning all the gray hairs to a dark brown, at the same time beautifying and thickening the hair. I strongly recommend the above Restorative to all persons in want of such a change of their hair. CHARLES CARDEW.

New York, July 25, 1857.
PROF. O. J. WOOD: With confidence do I recommend your Hair Restorative, as being the most efficacious article I ever saw. Since using your Hair Restorative my hair and whiskers which were almost white have gradually grown dark; and I now feel confident that a few more applications will restore them to their natural color. It has also relieved me of all dandruff and unpleasant itching, so common among persons who perspire freely.
J. G. KILBY.

PROF. WOOD—About two years ago my hair commenced falling off and turning gray; I was fast becoming bald, and had tried many Remedies to no effect. I commenced using your Restorative in January last. A few applications fastened my hair firmly. It began to fill up, grow out, and turn back to its former color, (black.) At this time it is fully restored to its original color, health, and appearance, and I cheerfully recommend its use to all.
Chicago, Ill., May 1, 1857. J. D. HOES.

The Restorative is put up in bottles of three sizes, viz: large, medium and small, the small holds half a pint, and retails for one dollar per bottle; the medium holds twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, forty per cent more in proportion and retails for $3.00 a bottle.
O. J. WOOD & CO., Proprietors, 312 Broadway, N. Y. (in the great N. Y. Wire Railing Establishment,) and 114 Market St., St. Louis Mo.
And sold here by all druggists and fancy goods dealers.
For sale by C. Harrington & Co., H. Fess, Jr., Bosworth & Sons, Green & Button, and all druggists in Milwaukee and Wisconsin. jy29d&wSm eod

THE SENTINEL.

COMMERCIAL.

TUESDAY EVENING, November 1st.

Money Matters.

Money matters rather easier than they have been for some time past. Exchange is in good supply, selling at 1¼ premium on New York, and the supply of currency is increasing, but there is sufficient demand to keep it in healthy motion. This improved state of things is no doubt the result of the rapid movement of produce to market during the past two weeks. Not much strictly good business paper is allowed to go to the brokers, the banks accommodating their customers to a liberal extent at the legal rate. Outside rates nominally 1@2 per cent. a month.

NEW YORK MONEY MARKET OF TO-DAY.—We have the following report of the doings in the New York Money and Stock Markets of to-day, by telegraph:

Stock—Transactions at stock exchange was rather limited this morning but the general feeling was buoyancy and firmness; prices of most of the leading shares were higher while others were less firm. After adjournment, better prices were realized. No change in money; 5 per cent on call is now the rates. G & C 77¾; Pan 1,21½, M S gt'd 17½, M S 40¼, Erie 5, N Y C 80, Pac mail 71¾.

The wheat market was without much animation to-day, and yesterday's outside figures were reached only in one or two instances. The speculative feeling that gave so much life to the market a few days ago, has subsided in a great measure, and the chief aim of buyers at present seems to be to have no more wheat on hand than their immediate wants call for. The range of prices to day for the various grades were as follows: Extra Spring 92½@93c; Club 91@92c on the track; No 1 87½@89c in store and on the track, (the latter price only for one lot at the upper depot); and 86c for No. 2. The market at the close was quite sluggish, and but few transactions occurred in the afternoon. Flour was extremely dull, no transactions of importance occurring, with the exception of one sale to fill an Eastern order. The views of buyers and sellers are some distance apart on this article. Barley continues in good request.—Sales to-day of No. 1 at 60c; and Extra at 62c. Oats firm at 31@32c. Other grains unchanged. Dressed hogs sell quickly at $4@4,50 for light, and $5@5,50 for heavy. Freights firm, vessels being rather scarce just at present. The rates to-day are, wheat to Buffalo 7c; to Oswego 11c. Since the advance in freights considerable quantities of flour are going East by the way of the Detroit and Milwaukee Railway, the rates being as low by this route to the principal Eastern points as by the water routes.

CHICAGO, October 31st.—Receipts: 6,557 bbls flour, 87,719 bush wheat, 21,721 bus corn, 6,030 bus oats, 6,503 bus barley.

The *Press & Tribune* of this morning says:

The wheat market to-day was less active, and declined ½@1c on Spring grades. At the opening a few lots of No. 2 Spring changed hands, at 86½@87c, but as soon as the New York and Buffalo despatches were received the market fell to 86c, at which the great bulk of the transactions took place—closing quiet at that figure. Winter wheat was also in less demand and red declined 3@4c. About 70,000 bushels of all grades changed hands, at $1,10 for No. 1 white; $1,00 for No. 1 red; 89@89c for No. 1 Spring; 86@87c for No 2 do.; and 83@85c for rejected—all in store. The flour market, under the influence of an advance in railroad freights to-morrow, of 15 to New York, and 6c to Pittsburgh, declined 12½c, at which it was tolerably active. About 2,500 bbls were sold at $5,00@5,50 for white Winter; $4,62½ for red Winter; $4,00@4,60 for low grade to choice Spring extras; and $3,45@4,00 for Spring superfine. New corn was more active, though somewhat irregular in price. Under the new inspection, whereby all new corn put in store is granted "new corn" and "rejected new corn," according to quality, several sales were made, at 47@51c for the former, and 45@49c for the latter. Ear corn in good demand at 48@50c ℔ 75 lbs on track. Old corn very quiet, with a good inquiry for No. 2, of which several lots were sold at 57@58c in store, and No. 1 at 75c in store. Oats in good shipping demand, and market firmer. About 20,000 bushels were sold at 38½@34c for canal afloat, and 32@32½c for No 1 in store. Rye in large supply and market 3@4c lower, with sales at 62s for No. 1 store, and 63½c for Canal afloat. Barley was active and advanced 2@3c, with sales of about 32 90 bushels at 61@65c for No. 1 in store—the outside figures being for straight lots in one warehouse. Timothy Seed quiet, at $2,05@2,10. Highwines heavy, with limited transactions at 24@24½c. Provisions quiet. Tallow firm at 10c. Hides ½c lower.

CINCINNATI, Oct. 31st.—Receipts: 3,282 bbls flour, 5,935 bus corn, 22,100 bus wheat, 3,044 bus oats, 1,917 bus barley.

The *Gazette* says:

In the general markets, we have to notice continued depression for flour and wheat, under the unfavorable advices from New York, and the discouraging character of the late foreign news. The transactions in flour were confined to a few small lots at $4 79@4 80 for superfine, and $4 90@5 for fair extras. There was no disposition to buy, except so far as was necessary to meet the current wants of the local trade. The business in wheat was unimportant, holders asking prices above the views of buyers. Prime white was held at $1 13@1 15, and red at $1 05@1 08. Good demand for hogs, and sales of 1,200 head at prices ranging up to the market of the week, and about 1,200 bbls sold at $13 75. There was more inquiry for lard, and an improved feeling prevailed.—There was an order from a Madison manufacturer on yesterday, at 10c, which was not filled. Bacon is held at 7¼c and 9¼c for shoulders and sides.

NEW YORK HIDE MARKET.—The N. Y. Corn Exchange *Reporter* of the 28th ult., thus reviews the New York Hide Market for last week:

The market, up to the close of last week, continued without material alteration. The few purchases for export had a slight effect upon the market. The willingness of the trade to buy with more freedom and making the sales foot up a larger aggregate than for several previous weeks. But the demand did not appear healthy, and information of the decline which had taken place at Buenos Ayres, and probable reduction in some of the other South American marts, has caused holders to press their hides upon the market at reduced rates. In the past week they are offering Buenos Ayres, Rio Grande, and several other kinds at fully one per cent. per lb below last week's quotations. Dealers, however, manifest no disposition to purchase to any extent except at a still further concession. The depressed state of the leather market, and the reduced rates at which our merchants are forced to sell in order to meet the views of boot and shoe manufacturers, they feel will not encourage them in stocking their tanneries except at a material reduction from present asking rates. In green salted, business has been but moderate the past week, and prices for several kinds have eased away slightly.

SANFORD'S

Liver Invigorator,

NEVER DEBILITATES.

IT IS COMPOUNDED ENTIRELY FROM GUMS, and has become an established fact, a Standard Medicine, known and approved by all that have used it, and is now resorted to with confidence in all the diseases for which it is recommended.

It has cured thousands within the last two years who had given up all hopes of relief, as the numerous unsolicited certificates in my possession show.

The dose must be adapted to the temperament of the individual taking it, and used in such quantities as to act gently on the bowels.

Let the dictates of your judgment guide you in the use of the LIVER INVIGORATOR, and it will cure LIVER COMPLAINTS, BILIOUS ATTACKS, DYSPEPSIA, CHRONIC DIARRHOEA, SUMMER COMPLAINTS, DYSENTERY, DROPSY, SOUR STOMACH, HABITUAL COSTIVENESS, CHOLIC, CHOLERA, CHOLERA MORBUS, CHOLERA INFANTUM, FLATULENCE, JAUNDICE, FEMALE WEAKNESSES, and may be used successfully as an ORDINARY FAMILY MEDICINE. It will cure SICK HEADACHE, (as thousands can testify,) IN TWENTY MINUTES, IF TWO OR THREE TEASPOONFULS ARE TAKEN at commencement of attack.

ALL WHO USE IT ARE GIVING THEIR TESTIMONY IN ITS FAVOR.

MIX WATER IN THE MOUTH WITH THE INVIGORATOR, AND SWALLOW BOTH TOGETHER.

PRICE ONE DOLLAR PER BOTTLE.

—ALSO,—

SANFORD'S

Family Cathartic Pills,

COMPOUNDED FROM

PURE VEGETABLE EXTRACTS, AND PUT UP IN GLASS CASES, AIR TIGHT, AND WILL KEEP IN ANY CLIMATE.

THE FAMILY CATHARTIC PILL is a gentle but active Cathartic which the proprietor has used in his practice more than twenty years.

The constantly increasing demand from those who have long used the PILLS and the satisfaction which all express in regard to their use, has induced me to place them within the reach of all.

The Profession know well that different Cathartics act on different portions of the bowels.

The FAMILY CATHARTIC PILL has, with due reference to this well established fact been compounded from a variety of the purest Vegetable Extracts, which act alike on every part of the alimentary canal, and are GOOD and SAFE in all cases where a Cathartic is needed, such as DERANGEMENTS of the STOMACH, SLEEPINESS, PAINS IN THE BACK AND LOINS, COSTIVENESS, PAIN AND SORENESS OVER THE WHOLE BODY, from sudden cold, which frequently, if neglected, end in a long course of Fever, LOSS OF APPETITE, A CREEPING SENSATION OF COLD OVER THE BODY, RESTLESSNESS, HEADACHE, or WEIGHT IN THE HEAD, ALL INFLAMMATORY DISEASES, WORMS IN CHILDREN OR ADULTS, RHEUMATISM, a great PURIFIER OF THE BLOOD and many diseases to which flesh is heir, too numerous to mention in this advertisement. DOSE, 1 to 3.

PRICE 30 CENTS.

THE LIVER INVIGORATOR AND FAMILY CATHARTIC PILLS are retailed by Druggists generally, and sold wholesale by the Trade in all the large towns.

WOODRUFF'S PATENT SLEEPING CARS accompany all Night Trains on this route to New York and Boston.

All Trains for Summer are newly fitted with Ventilators and dusters.

Tickets can be had at all ticket offices in the West and at the Company's Office, under the Revere House, corner Randolph and Dearborn streets, and at the Depot.

GEO. M. GRAY, Gen'l Western Agent.
JOHN D. CAMPBELL, Gen'l Supt.

CITY OF BUFFALO, A. D. PERKIN, Comm'r, and WESTERN METROPOLIS, W. T. PEASE, Comm'r, form an Evening Line between Cleveland and Buffalo.

One of the above magnificent boats will leave the C O & O Railroad Dock, Cleveland, every evening (Sundays excepted) at 8 o'clock, or on the arrival of the trains from the South and West, making sure connection at Buffalo with the morning trains on the New York Central and Buffalo, New York & Erie R. R., for Niagara Falls, Rochester, Syracuse, Rome, Utica, Albany, Corning, Elmira, Oswego, New York and Boston.

It is useless to speak elaborately of the above boats, being already well known to the travelling public as in all respects First Class, Commodious and safe.

Thus rendering a summer trip to New York or any point east of Buffalo, the most desirable of any that could be planned.

Tickets can be had at the ticket offices in the West and at the Company's office, under the Revere House, corner Randolph and Dearborn streets, and at the depot.

PITTSBURG, FT. WAYNE & CHICAGO R. R.

NOW COMPLETED TO CHICAGO.

THIS NEW AND DIRECT ROUTE IS now open to New York, Boston, Pittsburg, Philadelphia, Baltimore, Washington City, Cleveland, Dunkirk, Buffalo, Niagara Falls, and all Eastern Cities; Cincinnati Columbus, Dayton, Springfield, Urbana, Zanesville, Steubenville, Newark and Wheeling, and all interior towns of Ohio, Pennsylvania, Virginia, Maryland, New Jersey, &c., making one grand unbroken Railroad line between

CHICAGO AND THE EAST.

FARE AS LOW AS ANY OTHER ROUTE.

Passengers wishing to go by this desirable and pleasant Route, should be particular and ask for Tickets by Fort Wayne, avoiding the annoyance of re-checking baggage as by other routes.

Trains leave the depot on VAN BUREN ST., daily as follows:

7:15 A. M., Morning Mail and Express.
7:35 P. M., Night Express.

CHECKING BAGGAGE THROUGH

To Pittsburg, Philadelphia, Baltimore and New York. Connecting directly with trains on the great Pennsylvania Central Railroad, to all Eastern cities. Also, with the Cleveland & Columbus R. R. to Cleveland, Dunkirk, Buffalo, Niagara Falls, via New York Central and New York and Erie Railroads to New York and Boston.

Persons going East will find this route by far the most desirable, both from the advantage in point of distance, variety and beauty of the country through which the roads pass, as well as the less frequent changes of cars, and the annoyance of re-checking baggage required by other routes.

Facilities for the transportation of Freight and Live Stock by this route, are unsurpassed. Rates as low as any other route, and with equal dispatch.

Tickets for sale at all the principal ticket offices at the West, and at the Company's Office, No. 50 Dearborn St., opposite the Tremont House, Chicago, and at the Union Ticket office, No. 230 East Water St., Milwaukee.

The Great Secret at Last Discovered!!

JUNIUS JUDSON,

PATENTEE AND MANUFACTURER OF

JUDSON'S PATENT

GOVERNOR VALVES,

FOR REGULATING THE

MOTION OF STEAM ENGINES,

WARRANTED THE MOST PERFECT Governor of Steam Power in the world, and like all really great inventions, the most simple. Manufactured by Judson & Snow, at Rochester, N. Y., Selye Buildings, near R. R. Depot.

Shop Rights for sale.

CAUTION TO INFRINGERS.

Patent issued in the United States, Nov. 5th, 1850. Reissued, Jan. 4th, 1854. Second Patent, March 4th, 1851. Patented also in Great Britain and the Canadas, June 6th 1851.

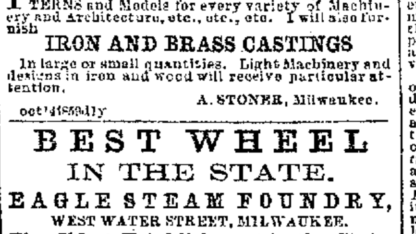

This improvement consists in making regulating valves to open with a rapidly increasing ratio of opening, by increasing the width of the opening made in the valve—or by accelerating the opening motion of the ordinary valves in use—or by combining increased width of opening, with accelerated valve motion. My patent Valve and Governors are so arranged as to give the resistance to the piston's motion, (or retard of the engine,) the power to open the valve just the exact amount of aperture necessary to counteract that resistance; and from the aperture, by the addition of equal amounts of resistance, notwithstanding that the action of the governor is continually decreasing in its effects.

I therefore reverse the action of valves combined with governors, as heretofore used. And as this effect can be produced by many different mechanical devices, (apparently not similar, but really identical with my improvement,) by which infringers have imposed upon the public, I therefore caution and request all persons interested, to examine carefully all alleged improvements in valves or governors, to see if the application of this truth or principle, first discovered and applied by me, is not involved in their arrangements;—and thereby prevent a fraud upon the purchaser and inventor, both of which are at present much annoyed by their piratical depredations.

POPULAR ESSAY

ON THE

DISEASES INCIDENT

TO

TRADES AND OCCUPATIONS.

IT IS OUR PURPOSE TO WRITE, AS briefly as possible, concerning the diseases and disorders incident to certain occupations including their causes, symptoms, and mode of cure. We shall do this in plain language, and in a straightforward way. Our purpose is two-fold—firstly, to give some curious facts not generally known; and, secondly, to bring more forcibly to view the ready relief at hand in RADWAY'S REMEDIES. We frankly avow that the trouble we are taking is a business transaction, meant to benefit both the public and ourselves.

The diseases springing from various trades arise either from the very nature of the occupations, from the materials handled or used, or from both causes. Scarcely any of these pursuits are necessarily unhealthy, but men will be as imprudent in their business as in their pleasure, and suffer for their neglect of precaution.

Let us look first at those who suffer from poisonous materials.

COPPERSMITHS, BRASS-FOUNDERS, BRAZIERS, AND PINMAKERS

from their manipulation of copper and its compounds, take into their system either the impalpable dust of its oxides or salts, or their fumes. The result is a copper disease, whose symptoms may vary more or less in violence, sometimes creeping slowly along until the system is utterly destroyed, or else opening an avenue to more apparent diseases. The victim to the copper disease notices, perhaps, on rising in the morning, a slightly acrid taste in the mouth, a slight constriction of the throat, the tongue dry and parched, and, sometimes sickness at the stomach. He thinks he has caught cold, and, probably, takes some advertised expectorant, which leaves him worse than before. At times there comes an attack of colic. If dysentery is at all epidemic, he is very liable to be attacked, and his tormina and tenesmus, as the doctors call them, namely, his pain in the bowels and disposition to stool, are exceedingly violent. Often a thirst which he cannot account for, or a distended abdomen, or black stools, slightly streaked with blood, or an undefinable anxiety, is the confirming symptom, and is scarcely noticed. Cramps sometimes make their appearances in the limbs and stomach either alone or accompanied by some of the symptoms previously enumerated. A headache at the close of work, or during the day, is quite common. A preventive of these would be the use of a respirator, which checks the passage to the lungs or stomach of the dust or vapor, and gloves, to keep it from the pores of the skin. A generous diet should be used, the bowels kept open by moderate doses of *Radway's Regulating Pills*; a dose should be taken in the morning and evening of *Radway's Ready Relief*, and the use of *Radway's Renovating Resolvent* persevered in until the system is rid of the poison.

TYPE-FOUNDERS, PEWTERERS, PAINTERS, PLUMBERS AND GLAZIERS, AND WORKERS IN MANUFACTORIES OF SHOT-TOWERS,

are exposed to the lead disease. This, like the copper disease, may produce a series of insidious but scarcely noticed symptoms, ending sometimes in paralysis, or, more especially with painters, and white-lead makers in what is generally called painter's colic. These all, at times, will notice in their mouth, more particularly at rising, a sugary and slightly astringent taste, constriction of the windpipe, pain and uneasiness in the region of the stomach, and occasionally nausea, followed sometimes by vomiting.

COACH PAINTERS,

or those who use much vermilion, will have a tendency to diarrhœa, for, unlike copper, this shows its effects more in the small intestines: and the bladder and urinary passages will be seriously affected, sometimes merely producing painful urination, and at others, bloody or high-colored urines. The *Regulating Pill* and the *Resolvent* must be mainly relied on, and the parties should never go to work on an empty stomach. For the more painful symptoms the *Ready Relief* will be necessary, and will by no means be amiss. It should be used internally and externally. In painter's colic, the *Regulating Pills* should be used to produce a free evacuation, and afterward more moderately, to keep up regular action; and from the very start, the *Ready Relief* given in full doses, in flaxseed or slippery-elm tea, or gum-water. The diet should be light, chiefly beef tea (not beef soup) or chicken broth, from which the fat has been skimmed. In paralysis, the persistent use of the *Regulating Pills*, with the *Ready Relief*, well and steadily rubbed into the affected limb or part for at least fifteen minutes, three times per day, and a generous, but digestible diet, will effect a cure. In all external applications the palm of the hand is the best thing to rub with, and a female hand, from its softness, should be preferred.

DYERS AND CALICO PRINTERS

are liable to several severe symptoms. Those who use muriate of tin sometimes perceive its effects in their systems. They observe an austere taste in their mouth, which is apt to turn into a well-defined metallic one, together with nausea, especially after rising from a meal. Their pulse is more small and hard, and beats more frequently than natural. One very common symptom is a frequency of stool, and diarrhœa, for during some months this may be unattended by pain, and the consistency of the evacuations be normal. Twitching of the face and extremities is less common, but a more dangerous symptom, for unless promptly met, it may be followed by a paralysis of the parts attacked. The treatment in this is the same as in the copper disease, viz: *Radway's Ready Relief, Regulating Pills and Resolvent.*

TINSMITHS

are sometimes affected in a manner similar to dyers, but in a less degree. Their attacks are rare. If peculiarly susceptible they may take the lead poison from the solder, but we have never known but one case of that kind. The acrid fumes of charcoal, in this and similar trades, sometimes produce inflamation of the bladder, which may be effectually combatted by the *Relief* and the *Regulating Pills*.

PAPER-STAINERS AND TAXIDERMISTS.

occasionally suffer some most distressing symptoms—the former from their showy greens they use, and the latter from their constant handling of arsenic or the corrosive chloride of mercury. A foetid breath is not uncommon, with a rather austere taste at times, considerable soreness of gums, and constriction of the throat, sometimes with a disposition to extend into the bronci, frequent hiccough, sometimes a fainting sensation, which comes and goes very suddenly, very black and offensive stools, and sometimes bloody urine. These are some of the symptoms which may occur separately or together. It is a curious fact that some people engaged at these occupations grow quite plump, and of a very peculiar delicacy of skin, tending especially a fresh and clear complexion. If, however, they go into any other employment, or refrain from work for a while, they are certain to become sick. Those who follow it, and wish to abandon it, should be careful to return to it only on the same principle as the opium eater, leaving it off gradually. In either case, the *Resolvent* should be used along with the *Regulation Pills*, the relief being resorted to in order to remove immediate pain or distress.

ELECTROTYPERS, GLASS-STAINERS, AND GLASS-ENAMELERS, MANUFACTURERS OF CHEMICALS, GOLD AND SILVER PLATERS, AND REFINERS, are liable to many of the above symptoms. Electrotypers are especially liable to derangement of the bladder.

PRINTERS AND TYPE-FOUNDERS,

from the constant handling of type-metal, contract the effects of antimony. This shows in the temporary paralysis of the fingers and hands, copious stools, cold night sweats, loss of strength, tenderness of stomach, bowels and throat. Sometimes, though seldom, vomiting takes place. There is also a confused, semi-intoxicated sensation in the head. The treatment here is gentle purging with *Radway's Regulating Pills*, aided with the *Ready Relief* as a drink, when the disease has become chronic the *Renovating Resolvent* must be used as an adjuvant to the *Relief* and *Pills*.

MASONS AND BRICKLAYERS, ASSISTANTS, AND MORE ESPECIALLY LIMEBURNERS AND WHITE-WASHERS,

are constantly liable to vomiting, pains in limbs or temporary palsy, which later sometimes become permanent. A milk-diet, mucilaginous drinks, and the use of the *Ready Relief*, will remove most of these symptoms, the *Resolvent* being also necessary where palsy supervenes. Sometimes contraction follows, demanding the use of the *Regulating Pills*. The particles of lime in the eyes are very apt to produce conjunctivitis, which will vanish in case an eye-wash made of the Ready Relief is put in the proportion of six drops to every two table-spoonfuls, increased gradually to ten drops. A dose or two of the *Regulating Pills* will materially assist in subduing this inflammation.

POWDER-MAKERS

are subject to heart-throbbing and heart-disease with looseness of bowels, and both these and

THE MAKERS OF LOCO FOCO MATCHES

are liable to a very troublesome skin-disease, developing itself on the scalp, and sometimes in little patches, on the back of the thumbs or fore-fingers, or the lower extremity of the spine, attended with itching, and scaling of the cuticle. In the former cases the *Regulating Pills* will be found sufficient, combined with the *Relief*; in the latter the *Resolvent* internally, with the *Relief* applied externally, diluted at first, but gradually increased to its full extent.—The *Regulating Pills* may be advantageously used, if the disease is attended by costive stomach and bowels.

The effect of the alkaline contact is sometimes shown on

SOAP-BOILERS

in colic, convulsions and diarrhoea. The *Relief* will remove these. Lemonade should be used occasionally as a drink, and oranges or any ripe fruit slightly acid will be found to be a pleasant as well as a valuable adjuvant. Relief answers a good purpose in these cases.

BLEACHERS AND OTHERS EXPOSED TO CHLORIDE OR OTHER FUMES OF ACIDS,

are apt to be attacked by pains in throat, stomach or bowels, excessive thirst and tenderness of abdomen. If the exposure is long continued at one time, there comes an acid taste in the mouth which leaves after the *free* air is inhaled; but this only occurs from sheer neglect. The symptoms named first give way to the *Ready Relief*. The addition of a slight dose of calcined magnesia will aid the action of the medicine slightly; but it is not absolutely necessary. The *Relief* will do its work well without it. The makers of loco-foco matches are sometimes troubled with the above symptoms, caused by the phosphorus which enters into the composition of the tips. A chronic inflammation of the glands and tonsils is sometimes the result of this—coming on very insidiously, and if not checked, tending to the windpipe, and even to the branching air-tubes of the lungs, called by the doctors the bronchiæ. When this commences it may be soon checked by a gargle made up of equal proportions of the *Ready Relief* and water.

We will next examine the cases of those who are affected by disease from irritating substances applied to the lungs and air-passages mechanically, with the following classes; some of those mentioned previously might be classed.

CARPET AND OTHER WEAVERS, CHARCOAL DEALERS, BOILER MAKERS, WHITESMITHS, LOCKSMITHS, MACHINISTS, FURRIERS AND FUR DEALERS, FILE CUTTERS AND DRILLERS, MATTRASS-MAKERS, TEA PACKERS, CUTLERS, FILE MAKERS, LAPIDARIES, SCULPTORS, STONE-CUTTERS, SEATERS, CARPET-BEATERS, GRINDERS AND POLISHERS, STREET-SWEEPERS, AND WOOL-PULLERS,

are subject particularly to bronchial affections and consumption, arising from the floating particles of irritating matter disengaged during the process in which they are engaged, and entering the air-passages. In all such cases *Radway's Ready Relief*, applied externally over the throat and chests, and the *Renovating Resolvent*, taken internally, will speedily effect a cure, and remove all traces of incipient consumption.

HATTERS

were formally included in the same position, but the advent of silk hats greatly diminished this tendency. A respirator is very necessary as a preventive, and indeed, as an aid to cure. A silk handkerchief tied over the mouth and nostrils, when directly exposed, is as good as anything. A generous diet, vigorous, out-door exercise, and the use of the *Ready Relief* and *Resolvent* will soon restore the system to health.

FARMERS, HOSTLERS, GROOMS, AND ALL WHO HANDLE HAY,

are liable to the distressing, though rarely fatal complaint, asthma. The fumes of shellac produce the same disease, and hence hatters, and especially those who make sealing wax, are subject to it. Asthmatic people are proverbially long-lived, yet the complaint is by no means agreeable. The *Ready Relief* will mitigate or remove the paroxysms of the disease, and the *Renovating Resolvent*, taken according to direction, will effect a cure.

BAKERS

from the action of the acid of fermentation on the skin of their hands and the almost constant exclusion of air from the pores by the flour, are subject to a troublesome itch. For this the *Renovating Resolvent* is a sure remedy, but the *Relief*, diluted and applied as a wash, will aid in effecting the desired end sooner.

Occupations wherein sudden mental emotions or protracted mental labor forms a part, are not only productive of brain disease but of a gradual *ramollissement* or softening of the substance of the brain, whose approach may be told by neuralgia, seldom just below the eye or above the eyebrows. Asthma and costiveness, the latter the parent of piles, fistula, and similar troublesome complaints, are often the result. Hence it is that

LAWYERS, AUTHORS, EDITORS, TEACHERS, MERCHANTS, AND CLERGYMEN

are affected so much with neuralgia and costiveness. The treatment in those cases is *Radway's Ready Relief—internally and externally—the pain immediately ceases after its application*. *Radway's Regulating Pills* will, in a few hours, restore regularity to the bowels and liver. In certain cases of Neuralgia and other nervous affections, the *Resolvent* is requisite.

Exposure to heat characterizes some occupations, thus,

IRON-FOUNDERS, FURNACE-TENDERS, COOKS, AND KITCHEN-MAIDS,

are liable to asthma, costiveness, consumption, and inflammation of the spleen and liver. Enlargement of the liver is very common among all persons exposed to intense heat. Hence it is that liver complaints are so common in tropical climates. It need scarcely be said that the liver is a controlling organ, and that its derangement involves all the connecting viscera.—The derangement of this viscus may be combatted successfully by the proper use of the *Relief* and *Regulating Pills*, which in the spleen disease also act with speedy good effect. For rheumatism, if acute, the *Ready Relief*, applied both externally and internally, is generally found sufficient, though chronic cases, or such as may be combined with a scrofulous habit, will not yield without the *Renovating Resolvent*, which utterly roots out the disease and restores the system to its normal state.

STEVEDORES, LONGSHOREMEN, PORTERS, QUARRYMEN, AND ALL PERSONS WHO LIFT GREAT WEIGHTS,

are exposed to attacks of pleurisy. The *Relief* will break the violence of this, and with the *Regulating Pills* effect a cure.

BOATMEN, DECK HANDS, DITCHERS, DOCK BUILDERS, SEAFARING MEN, RAFTSMEN, PHYSICIANS, STAGE DRIVERS, TRUCKMEN,

and all exposed to sudden changes of weather, are liable to liver complaint and rheumatic affections, but more especially to spleen diseases.

SEAMEN,

through long abstinence from vegetable diet, are subject to *Scurvy*. The use of *Radway's Regulating Pills* and *Renovating Resolvent* is a sure antidote for this distemper. In all cases of *Ship Fever, Small Pox, Cholera* or *Yellow Fever*, *Radway's Ready Relief* and *Regulating Pills* are the most powerful remedies to fortify the attacks, and cure certainly if used after.

STAGE-DRIVERS

are liable to suffer from diabetes, for which the *Regulating Pills* and *Resolvent* should be used.

PHYSICIANS,

who are frequently much exposed, should never be without the *Ready Relief*, especially in visiting patients sick with contagious diseases. The head, hands and face thoroughly washed with it, and a full dose of it taken internally just prior to the visit, will effectually prevent contagion. The power of the *Relief* in the matter of contagious disease is really wonderful. It is a sure *preventive* to *Small Pox*, and in a well-known disease among cattle, known as *Black Tongue*, depending, in a degree, upon some contagious virus, yielded so readily to this remedy, that

DROVERS AND CATTLE DEALERS,

through the South and West, look upon it as a sovereign and infallible remedy in all such cases. Hence, too,

BOATMEN, PLANTERS OR FARMERS RESIDING IN LOW OR OCCASIONALLY OVERFLOWED GROUNDS, will find the *Relief* a protection against *Fever and Ague* and other malarious diseases.

PRINTERS AND MINERS,

the former from standing so long at the case, and the latter from their cramped position in the mines, aided no doubt, by the dampness, have more or less troublesome affections of the joint occasionally.—These will always yield to the *Relief and Regulating Pills*, unless suffered to run too long, when the *Resolvent* may be required.

BUTCHERS

occasionally have life or limb endangered by a scratch or cut from a knife which has been used in dressing or opening an animal too long killed. Swelling of the part, itching and enlargement of the neighboring glands (kernels) follow. The wound should be washed, and a bread poultice (not bread and milk) moistened with some drops of *Ready Relief*, employed. The swelling should be bathed with the *Relief*, and the *Regulating Pills* used until the violence of the symptoms has abated. It may as well be mentioned here, that the making of a really good poultice is little understood. Stale bread should be rubbed into a fine crumb and placed in a soup-plate or large saucer, over which water, *while boiling*, must be poured. A similar plate or saucer is now to be placed over this, the two grasped firmly and held up sideways so that the water will drain out. The wet crumb is now to be rubbed into a pasty consistence with a spoon, placed on a rag at once and applied to the part as warm as the patient will bear. As soon as it begins to harden around the edges a fresh one should be substituted, and thus a continual fermentation be kept up. This is the true poultice, which may be medicated by the *Relief* or others, if required.

BASKET-MAKERS, BOOT AND SHOE MAKERS, AND TAILORS,

from their sedentary habits, are subject to piles, anemia, tympanites, costiveness, hypochondria, diabetes, St. Vitus' dance, dropsy of chest, general debility, and, if the habit of the body tend that way, to apoplexy, or if not, to consumption and lung disease.—The treatment of these under our system is summarily and effectual. For hypochondria, the *Ready Relief* and *Pills*; for dropsy and for St. Vitus's dance, the *Regulating Pills* and *Resolvent*; and for anemia, all three of the remedies. The treatment of the other affections have been already indicated.

The complaints of females engaged at various occupations are somewhat different from males, in consequence of their peculiarity of organization. It is true that those who live a sedentary life, or are occupied in pursuits which require them to stand or leap over their labor, are subject to similar diseases with those of the opposite sex in like occupation. Thus

FEATHER-DRESSERS, MILLINERS, PAPER-FOLDERS, PAPER-BOX-MAKERS, MATCH-DIPPERS SEAMSTRESSES, AND THE LIKE,

are liable to costiveness, piles, and general debility. But what they have most to dread is the derangement of those secretions which nature has wisely given them for their health and comfort. They are particularly liable to hysteria, obstructed, painful, or irregular menstruation, whites, kidney weakness, nervous drowsiness, for all of which the *Relief* and *Regulating Pills* are confidently prescribed; or subject to chlorosis, to be removed by the use of the *Resolvent*, in addition to the other two remedies named.

Perhaps of all female occupations, that of

THE FACTORY GIRL

is liable to the most distressing symptoms, more especially when the ventilation of the work-room is not perfect. Standing position, monotonous employment, and floating particles continually drawn into the air passages, all combine to weaken, depress and destroy. Yet, by prudence, care, and the use of *Radway's Remedies*, even the factory girl may bid defiance to death and the doctors—otherwise a very formidable partnership to fight.

For the present we draw our remarks to a close.—But it does not follow that all occupations should be abandoned wherein people are subjected to acid fumes, poisonous materials, irritating vapors or particles, intense heat, changes of weather, exposure, and the debilitating efforts of stationary or constrained positions. With ordinary prudence, out-door exercise, and the use, when indicated by symptoms, of Radway's celebrated remedies, their lives may not only be saved, but their systems fortified, and their comfort insured. *Radway's Ready Relief* and *Regulating Pills* will be found all-sufficient to prevent or cure, except in chronic cases, or those in which the system has been prostrated; and even there, *Radway's Renovating Resolvent* will speedily remove all obstacles to the kindly influence of nature, and thus restore the system to perfect health.

In truth, if the *Ready Relief* be kept constantly on hand, and used at the outset of every attack according to directions, it alone will be found enough to avert or combat all the deleterious efforts we have named, and may be considered the great shield of those who otherwise would be overcome by disease and death.

It is not so many years since Radway's Remedies have been introduced; for the birth of that perfection of chemical and pathological science upon which they are based is itself comparatively new. The principles of their action are as old as humanity itself, but it is remained for modern science to develop and apply them. How successfully this has been done, the overwhelming popularity and universal sale of Radway's Remedies show. Their sovereign power of these blessings to the sick and suffering is indisputable; they are in themselves the entire vegetable materia medica; and they are rapidly superseding all the deleterious compounds whose use and abuse has done so much to bring

"Death into the world, and all our woe."

The price of Radway's Remedies places them within the reach of every human being—the *Ready Relief* is sold for 25 cents, 50 cents and $1 per bottle; *Radway's Pills* 25 cents per box: *Resolvent* $1 a bottle.
